Committee's comments on the (non-)implementation:

- notes that the **first package of the CFP reform**, formerly expected in the first half of 2011, was postponed to the second semester and adopted only on **13 July 2011,** and was followed **, on 2 December 2011,** by a proposal for a Regulation regarding the new European Maritime and Fisheries Fund**;**
- notes that, taking into account the delay in the adoption of the Commission proposals and the length of co-decision procedures on such crucial and complex issues, it does not seem realistic to expect an entry into force of the legislative package on 1 January 2013;
- notes the persistent deadlock regarding the pending proposals on **multi-annual plans for anchovy and horse mackerel,** and the consequent postponement of the adoption by the Commission of a number of proposals for additional management plans until this inter-institutional stalemate has been solved;
- notes that several proposals regarding the **alignment of basic legislation to article 290 TFUE** and scheduled for 2011 have been postponed and not yet adopted;
- reiterates that the legislative package regarding **the forthcoming reform of the CFP is the main priority of the PECH Committee for 2012 and 2013**;
- urges the Commission to adopt **legislative proposals on the following issues**, as a matter of urgency and under the ordinary legislative procedure:
a) - a proposal on an **extension of the validity of the Article 17.2 of Council Regulation 2371/2002**, regarding general access rules and restrictions for the **12 nautical miles waters,** in order to avoid a legal vacuum**:** the current basic regulation will remain in force until a new regulation has been adopted, except for this provision, which will expire on 31.12.2012; if a new basic regulation is not adopted before that date, this article will no longer apply.
b) - a proposal in order to allow the entry into force of **a new technical measures framework in 2013,** when the existing transitional measures will expire, addressing the shortcomings of the current situation: regulations to extend temporarily the validity of the current transitional regime were already adopted twice, on the basis that they would be transitional[1] and will expire on 31.12.2012.
A new proposal regarding this issue was often requested by the PECH Committee and the EP[2]. The PECH Committee expresses again its concern and dissatisfaction about this

[2] See EP resolution of 6 July 2011 (point 35), summary report of the PECH 2011 "structured dialogue" with the Commissioner, as well as several debates in plenary, in particular on 5.04.2011 on report A7-0024/2011, 2010/0080 (COD).

unacceptable situation
- invites the Commission **to play a more clearly committed and active role in trying to find a way forward regarding the currently blocked files,** fully in line with the TFEU, and to present without further delay its planned new proposals for multi-annual plans1;
- urges the Commission to adopt urgently the announced proposals regarding the **alignment of the existing basic CFP legislation in the area of the CFP**.

2. The committee's priorities for the forthcoming Commission Work Programme 2013:

2.1 Legislative *(please limit to real priorities)*

- The **CFP reform package (and all related legislation, including on technical measures framework).**
- A**dequate financial resources shall be allocated to the reformed CFP** within the framework of the **new multiannual financial framework for 2014-2020**, in order to secure its successful implementation. Special attention should be paid to **small scale fisheries sector**.
- Further progress in the adoption of **long term management plans**, which are a cornerstone of the CFP.
- Achieving an appropriate level of compliance with the rules of the CFP and **combating the IUU fishing**. The EP has adopted on **17 November 2011 an important resolution on combating illegal fishing at the global level** and the role of the EU, where **several concrete proposals** are made to the Commission in order to make further progress in the fight against this major problem worldwide[2].
- Ensuring a level playing field where stocks of common interest are shared with third countries, including by supporting and implementing EU trade measures in response to failures by third countries in order to guarantee the effectiveness of conservation efforts, in accordance to international law.
- The Commission shall ensure that **Article 43 (2) TFEU** is the legal basis for all its proposals with **measures pursuing the objectives of the CFP** and that **Article 43 (3) TFEU will be strictly interpreted** and not used to cover other items than the mere fixing of allocation of fishing opportunities, in particular under the annual TACs and Quotas regulations[3].
- Further progress in the development and implementation of the **Integrated Maritime Policy (IMP**), ensuring maximization of the synergies among the sectoral policies involved and a fair and proportional contribution from all the sectors affected by this policy;
- Further progress in **the process of the full alignment** and presentation by the Commission of an **assessment of the basic legislative acts in force which still need to be adapted, together with the appropriate legislative initiatives**, in order to complete the adaptation according to the criteria laid down in the Treaty as soon as possible.

2.2 Non-legislative *(please limit to real priorities)*

- The EP should be involved and **immediately and fully informed at all stages of the procedures** related to Fisheries Partnership Agreements (FPAs), pursuant to Article 13(2) of the TEU and Article 218(10) of the TFEU, including by participating in the Joint Committee meetings envisaged in fisheries agreements and by getting access in due time and without

unnecessary restrictions to the related evaluations and other relevant documents; following the review to be carried out of the **Framework Agreement on relations between the Parliament and the Commission (FA)** according to its point 54, the PECH Committee would like **clarification and improvement of the relevant provisions of the FA** regarding international agreements and meetings of bodies set up by international agreements; the PECH Committee emphasizes that participation of Members of the EP as observers in **bilateral** international negotiations and meetings shall be expressly recognized by the FA.
- The Commission shall duly take into account the **legislative and non legislative** resolutions adopted by the EP with clear indications regarding its **general or specific requests** and **political priorities** for the **external dimension of the CFP** or **specific FPAs.**

3. One item for a Parliament key priority for 2013:
(one priority only among the ones outlined above)

The CFP is one of the most integrated common policies, giving the Union broad powers and therefore responsibilities for the management of marine resources. The incoming reform of the Common Fisheries Policy is therefore crucial for the future of both fishing resources and fishers by ensuring the recovery of fish stocks and restoring the economic viability of the sector. It can play a significant role in the Europe 2020 Strategy for promoting smart, sustainable and inclusive growth. **The reform of the CFP shall be a Parliament priority for 2013.**
