Amendment 8 Recital 7	
(7) The SISNET Agreement also provides networking and associated security services for VISION, a network supporting visa consultation procedures between central authorities of Member States according to Article 17 (2) of the Schengen Convention**,** ***but it*** is out of the scope of this proposal since the Council, in accordance with Regulation (EC) No 789/2001 of 24 April 2001 reserving to the Council implementing powers with regard to certain detailed provisions and practical procedures for examining visa applications , is the body competent for implementing the amendments necessary for migrating VISION to another communication infrastructure.	(7) The SISNET Agreement also provides networking and associated security services for VISION, a network supporting visa consultation procedures between central authorities of Member States according to Article 17 (2) of the Schengen Convention**.** ***In actual fact, VISION*** is out of the scope of this proposal since the Council, in accordance with Regulation (EC) No 789/2001 of 24 April 2001 reserving to the Council implementing powers with regard to certain detailed provisions and practical procedures for examining visa applications , is the body competent for implementing the amendments necessary for migrating VISION to another communication infrastructure. ***Notwithstanding Regulation***

(EC) No 789/2001, therefore, in order to preserve the coherence and consistency of SIS1+, the Commission will integrate VISION into the new communication network s-Testa and exercise implementing powers.

Or. it

Justification

In the case of the first change, I consider the wording proposed by the Commission to be preferable. The wording used by the rapporteur would tend to suggest that a legal act is required to integrate the new VISION network into the new communication network s-Testa and exercise implementing powers.
