3rd part: “and, where appropriate, revise the proposed threshold values.” ***[ROLL-CALL VOTE]***

Miscellaneous

Amendments 170 and 240 have been cancelled.

MEP Toussaint will move following oral amendment after recital 21:

Member States should prioritise reducing the risks for human health, animal health and the environment of particularly harmful contaminations such as high concentrations of chlordecone, arsenic or nickel in regions, including Guadeloupe, Martinique, and French Guiana, and should consequently establish concrete and ambitious measures to stop degrading soils, to study their quality and to regenerate soil health in these regions.
