COMMISSION DELEGATED REGULATION (EU) No .../..

of 30.9.2015

**amending Delegated Regulation (EU) No 2015/288 as regards the period of
inadmissibility of applications for support from the European Maritime and Fisheries
Fund**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE AMENDMENT OF THE DELEGATED ACT

The Commission Delegated Regulation (EU) No 2015/288 must be modified to add new elements with regard to cases referred to in Article 10(1)(d). Operators seeking to apply for support under Chapter II of Title V from the European Maritime and Fisheries Fund (EMFF) shall also be inadmissible if offenses set out in Articles 3 and 4 of Directive 2008/99/EC of the European Parliament and of the Council have been committed.

This amendment defines the inadmissibility of applications for these offenses as well as determining the relevant starting or ending dates of the inadmissibility period.

2. CONSULTATIONS PRIOR TO THE ADOPTION OF THE ACT

Consultations have been carried out in accordance with paragraph 4 of the Common Understanding on delegated acts between the European Parliament, the Council and the European Commission.

All parts of the act have been discussed at expert group meetings involving experts from all Member States. The European Parliament and the Council were duly notified of the dates of the meetings, agendas and relevant documents to enable requests to attend the meetings. The proposed content of the delegated act was discussed in the expert group meetings on the 3rd of February and the 8th of June 2015.

The meetings allowed for a full presentation of the Commission's draft provisions and a thorough exchange of views on all aspects of the draft. The procedure consisted of clarifying the Commission's approach, hearing experts' views and further refining the draft text accordingly. This allowed rules to be clarified and specified in response to experts' comments. In all cases, the experts were also able to submit written comments following the meetings. The questions and comments informed the drafting of the rules concerned.

3. LEGAL ELEMENTS OF THE DELEGATED ACT

Article 10(4) of Regulation (EU) No 508/2014 empowers the Commission to adopt delegated acts identifying the period of inadmissibility of applications for cases listed in paragraphs (1) and (3) of that Article, as well as the relevant starting or ending dates of the inadmissibility period. This delegated act identifies the period of time and the related starting or ending dates for cases referred to in Article 10(1)(d).

COMMISSION DELEGATED REGULATION (EU) No .../..

of 30.9.2015

amending Delegated Regulation (EU) No 2015/288 as regards the period of inadmissibility of applications for support from the European Maritime and Fisheries Fund

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 508/2014 of the European Parliament and of the Council on the European Maritime and Fisheries Fund¹, and in particular Article 10(4) thereof,

Whereas:

- (1) In order to achieve the objectives of the Common Fisheries Policy (CFP) and to safeguard the financial interest of the Union and its taxpayers, operators that, within a particular time before submitting an application for financial assistance, committed serious infringements, offence or fraud as set out in Article 10 of Regulation (EU) No 508/2014 should not benefit from financial assistance from the European Maritime and Fisheries Fund (EMFF) .
- (2) Under Article 10(1) and (3) of Regulation (EU) No 508/2014, certain applications submitted by operators for support from the EMFF are to be inadmissible for a specific period of time. Such applications are, *inter alia*, inadmissible where the application has been made for support under Chapter II of Title V of that Regulation as regards the sustainable development of aquaculture and it has been determined by the competent authorities that the operator concerned has committed any of the environmental offences set out in Articles 3 and 4 of Directive 2008/99/EC of the European Parliament and of the Council². Under Article 10(4)(a) and (b) of Regulation (EU) No 508/2014, the period during which applications are inadmissible and the starting or ending dates of that period are to be identified by the Commission in a delegated act.
- (3) Commission Delegated Regulation (EU) 2015/288³ identifies the inadmissibility period as well as the relevant starting or ending dates of that period for applications by operators who have carried out one or more of the actions referred to in Article 10(1)(a) and (b) and (3) of Regulation (EU) No 508/2014.

¹ Regulation (EU) No 508/2014 of the European Parliament and of the Council of 15 May 2014 on the European Maritime and Fisheries Fund and repealing Council Regulations (EC) No 2328/2003, (EC) No 861/2006, (EC) No 1198/2006 and (EC) No 791/2007 and Regulation (EU) No 1255/2011 of the European Parliament and of the Council (OJ L 149, 20.5.2014, p. 1.)

² Directive 2008/99/EC of the European Parliament and of the Council of 19 November 2008 on the protection of the environment through criminal law (OJ L 328, 6.12.2008, p. 28).

³ Commission Delegated Regulation (EU) 2015/288 of 17 December 2014 supplementing Regulation (EU) No 508/2014 of the European Parliament and of the Council on the European Maritime and Fisheries Fund with regard to the period of time and the dates for the inadmissibility of applications (OJ L 51, 24.2.2015, p.1.)

In accordance with Article 10(1)(d) of Regulation (EU) No 508/2014, it is also necessary to establish rules for calculating the duration of the inadmissibility period and the relevant starting or ending dates for applications for support under Chapter II of Title V of that Regulation.. The inadmissibility of those applications should help ensure increased compliance with existing laws for the protection of the environment.

- (4) Directive 2008/99/EC establishes measures relating to criminal law in order to protect the environment more effectively. Article 3 of that Directive lists those conducts which are to be punishable as criminal offences, when they are unlawful within the meaning of that Directive and committed intentionally or with at least serious negligence. Under Article 4 of that Directive, Member States are to ensure that inciting, aiding, and abetting the intentional conduct of the offences referred to in Article 3 are punishable as a criminal offence.
- (5) In order to ensure proportionality, cases in which an operator committed an offence with serious negligence and in which an operator committed an offence intentionally should therefore result in inadmissibility periods of different lengths. For the same reason, it is also appropriate to establish rules that take aggravating and mitigating factors into account when calculating the inadmissibility period.
- (6) In order to ensure proportionality, offences that are carried out over a period of more than one year should result in longer inadmissibility periods
- (7) In accordance with Article 10(1)(4) of Regulation (EU) No 508/2014, where the competent authority has determined that an operator committed any of the offences set out in Articles 3 and 4 of Directive 2008/99/EC of the European Parliament and of the Council, an application from the operator for support from the EMFF under Chapter II of Title V of this Regulation is to be inadmissible for a period of at least one year. As Regulation (EU) No 508/2014 applies as from 1 January 2014, only offences committed as from 1 January 2013 should be taken into account for the calculation of the inadmissibility period.
- (8) In order to ensure effective protection of the environment, where an application of an operator is inadmissible due to the environmental offences set out in Articles 3 and 4 of Directive 2008/99/EC, all applications of that operator pursuant to Chapter II of Title V of Regulation (EU) No 508/2014 should be inadmissible. In order to ensure proportionality it is appropriate to lay down rules for the revision of the inadmissibility period where additional offences are committed by an operator during that period. For the same reason, it is also appropriate that a repetition of an offence results in longer inadmissibility periods.
- (9) Delegated Regulation (EU) No 2015/288 should therefore be amended accordingly.
- (10) In order to allow for the prompt application of the measures provided for in this Regulation and given the importance of ensuring a harmonised and equal treatment of operators in all Member States from the start of the programming period, this Regulation should enter into force on the day following that of its publication and apply from the first day of the eligibility period for support from the EMFF, namely 1 January 2014,
