Proposal for a

COUNCIL DECISION

On the signature on behalf of the European Community and provisional application of certain provisions of a Euro-Mediterranean Association Agreement between the European Community and its Member States and the Syrian Arab Republic

Proposal for a

COUNCIL DECISION

On the conclusion of a Euro-Mediterranean Association Agreement between the European Community and its Member States of the one part, and the Syrian Arab Republic, of the other part

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. The attached proposals constitute the legal instruments for the signature and conclusion of a Euro-Mediterranean Association Agreement between the European Community and its Member States, of the one part, and the Syrian Arab Republic, of the other part.
 - (a) Proposal for a Council Decision for the signature of the Agreement;
 - (b) Proposal for a Council Decision for the conclusion of the Agreement.
2. Syria's relations with the European Community are presently covered by the Co-operation Agreement signed on 18 July 1977 (entered into force on 1 January 1978), as modified by subsequent protocols. The Council adopted its negotiating directives on 18 December 1997 and the Commission formally launched the negotiations for an Association Agreement on 14-15 May 1998. Progress was very slow in the first four years. The pace of negotiations changed after the Syrian government reshuffle in December 2001 and at the eighth session on 5-6 June 2002 the first chapters of the text could be agreed. After the submission of a comprehensive Syrian tariff schedule, intensive negotiations on tariff dismantlement could start in September 2003 leading to conclusion of the negotiations at the twelfth and final round on 8-9 December 2003, followed by a series of technical discussions, leading to the initialling of the text by the Commission and by the Government of Syria in Brussels on 19 October 2004.
3. The proposed Association Agreement between the EU and Syria will establish a new, closer relationship within the context of the Euro-Mediterranean partnership launched by the 1995 Barcelona Declaration. It will contribute to peace and security in the region and will stimulate trade and economic relations between Syria and the EU, and Syria and its Mediterranean partners. The proposed agreement would be the last missing piece in building the Euro-Mediterranean Free Trade Area in 2010 as set up in the Barcelona Declaration. The Barcelona Declaration underlines the EU's priority to strengthen its security, economic and social relations with the partners of the southern Mediterranean Basin. Agreements with Tunisia, Morocco, Algeria, Egypt, Israel, the Palestinian Territories (PLO), Jordan and Lebanon have already been signed; only Syria remains.
4. The EU-Syria Association Agreement will have an unlimited duration and will open the way to deepen relations in a wide number of fields, based on reciprocity and partnership. Respect for the principles of democracy and human rights will constitute an essential element of the Agreement. In line with the Council Decision of 17 November 2003 on the fight against the proliferation of weapons of mass destruction, the Agreement also contains as an essential element a commitment to fulfilling existing obligations under disarmament and non-proliferation instruments.
5. The EU-Syria Association Agreement is similar in pattern to other Euro-Mediterranean Association Agreements, but contains more far-reaching and substantial provisions in a number of areas: non-proliferation, counter-terrorism, comprehensive tariff dismantlement on agricultural products, technical barriers to trade, sanitary and phyto-sanitary measures, trade facilitation, right of establishment and services, government procurement, intellectual property rights and trade dispute

settlement mechanisms. The provisional application of trade and trade related provisions is also foreseen.

6. The Agreement focuses on the following main elements:

- regular political dialogue, including co-operation on non-proliferation;
- economic, social, and cultural dialogue and co-operation in a wide range of fields;
- the progressive establishment of a free-trade area between the European Community and Syria over a maximum period of twelve years. Both Parties recognise the importance of free trade, as guaranteed by the General Agreement on Tariffs and Trade of 1994 (GATT) and by the other multilateral agreements annexed to the Treaty establishing the WTO;
- for industrial products, free access granted to Syrian exports to the Community under the 1978 Co-operation Agreement is reconfirmed. Reciprocally, Syria will liberalise its imports regime for Community products so that all tariffs are reduced to zero by the end of the twelve year transition period after entry into force of the Agreement;
- for processed agricultural products, specific reciprocal concessions are foreseen;
- agricultural products from Syria to the Community will be liberalised conforming to Barcelona Process objectives (gradual liberalisation with review clause). For a list of sensitive products tariff quotas shall be applied. Tariffs on products from the Community exported to Syria will be dismantled in a linear manner so as to reach zero by the end of the twelve year transition period after entry into force of the Agreement;
- trade in fish and fishery products imported from Syria into the Community, with the exception of a limited number of products, will be liberalised over a two-year period. For those products where liberalisation is not foreseen, tariff quotas will be provided under the Agreement. Tariffs on fish and fishery products exported from the Community to Syria will be dismantled in a linear manner over a maximum period of 12 years after the entry into force of the Agreement;
- right of establishment and services granting European investors MFN or national treatment (whichever is better) for establishment in Syria and opening almost all sectors for investment, with the exception of some reserved currently for state monopolies. The area of telecommunications will be opened at the latest six years after entry into force;
- dispute settlement provisions to resolve trade disputes in line with the WTO Dispute Settlement Mechanism;
- provisions on the movement of persons;
- on payments and capital movements, competition, government procurement, intellectual, industrial and commercial property rights, and on standards, technical regulation and conformity assessment procedures;

- commitments and co-operation in the areas of migration (including re-admission), rule of law, combating drugs and organised crime, money-laundering, and counter-terrorism;
- institutional provisions for the management of the Agreement, which will include the establishment of an Association Council to meet at ministerial level to supervise the implementation of the Agreement, and of an Association Committee;
- the Association Council shall take all appropriate measures to facilitate co-operation and contacts between the European Parliament and the Syrian People's Assembly.

It is aimed at supporting economic and political reform in Syria, preparing Syria for integration into the world economy and promoting regional integration. Through a regular political dialogue, it will also enable the EU to engage into discussions with Syria on all topics of mutual concern, in particular human rights and democratic principles, terrorism and non-proliferation.

CHAPTER I

ELIMINATION OF CUSTOMS DUTIES

A customs duty includes any duty or charge of any kind imposed in connection with the importation or exportation of a good, including any form of surtax or surcharge in connection with such importation or exportation, but does not include any:

- (a) internal taxes or other internal charges imposed consistently with Article 24 (1);

 5. In the event of the accession of Syria to the WTO, the basic customs duty to which the tariff elimination provisions are to be applied shall be the WTO bound rate or other, if lower, effectively applied rate *erga omnes* as of the date of the accession. If, after the accession to the WTO, a tariff reduction is applied on a *erga omnes* basis, the reduced rate shall apply as the basic customs duty from the date of application of that reduction.

Article 10

No new customs duties shall be introduced nor shall those already applied be increased in trade between the Parties as from the date of signature of this Agreement.

 - b) Customs duties applicable on import into Syria of products originating in the Community introduced by these measures may not exceed 25% ad valorem and shall maintain an element of preference for products originating in the Community. The total yearly average value of imports of the products that are subject to these measures may not exceed 20% of the total yearly average value of imports of industrial products originating in the Community during the last three years for which statistics are available.
 - c) These measures shall be applied for a period not exceeding five years unless a longer duration is authorised by the Association Committee. They shall cease to apply at the latest on the expiry of the maximum transitional period of twelve years.

 - e) Syria shall inform the Association Committee of any exceptional measures it intends to take. Within thirty days after this notification, the Community may request consultations on such measures and the sectors to which they apply before they are implemented. When taking such measures Syria shall provide the Committee with a timetable for the elimination of the customs duties introduced under this Article. This timetable shall provide for a phasing out of these duties in equal annual instalments starting at the latest two years after their introduction. The Association Committee may decide on a different timetable.
2. By way of derogation from the fourth subparagraph of paragraph 1, the Association Committee may exceptionally, in order to take account of the difficulties involved in setting up a new industry, authorise Syria to maintain the measures already taken pursuant to paragraph 1 for a maximum period of three years beyond the twelve-year transitional period.

Section 2

2. Without prejudice to the provisions of the preceding paragraph and taking account of the volume of trade in agricultural products, fisheries products and processed agricultural products between the Parties and the particular sensitivity of such products, the Community and Syria shall examine in the Association Council, product by product and on a reciprocal and orderly basis, the possibilities of granting each other further concessions.

Article 21

1. The Parties shall co-operate in the area of sanitary and phytosanitary measures with the objectives of facilitating trade. The Parties will be bound by the principles set out in the WTO Agreement on the Application of Sanitary and Phytosanitary Measures, when applying SPS-measures.
2. On request the Parties shall identify and address problems that may arise from the application of specific SPS-measures with a view to reaching mutually acceptable solutions.

Article 22

1. In the event of specific rules being introduced as a result of the implementation of its agricultural policy or of any alteration of the current rules or in the event of any alteration or extension of the provisions relating to the implementation of its agricultural policy, the Party concerned may amend the arrangements resulting from the Agreement in respect of the products concerned.
2. In such cases the Party concerned shall inform the Association Committee. At the request of the other Party, the Association Committee shall meet to take due account of the interests of the other Party.
3. If the Community or Syria, in applying paragraph 1, modifies the arrangements made by this Agreement for agricultural products, they shall accord imports originating in the other Party an advantage comparable to that provided for in this Agreement.
4. The application of this Article should be the subject of consultations in the Association Council.

CHAPTER 2

COMMON PROVISIONS

Article 23

All import or export prohibitions or restrictions in trade between the Parties, other than customs duties and taxes, whether made effective through quotas, import or export licenses or other measures, shall be eliminated upon the entry into force of this Agreement. No new such measures shall be introduced. This provision is without prejudice to the application of Articles 28 and 29.

Article 24

1. Imported products of the territory of the other Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to domestic production.

2. Imported products of the territory of the other Party shall be accorded treatment no less favourable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the origin of the product.
3. Neither Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. For the purpose of this Article a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:
 - a) The Party which has made a finding, on the basis of objective information, of a failure to provide administrative co-operation and/or of irregularities or fraud in customs and related matters, the Party concerned shall without undue delay notify the Association Committee of its finding together with the objective information and enter into consultations within the Association Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.

The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative co-operation and/or of irregularities or fraud.

In particular, in the event of a third country acceding to the Union, such consultation shall take place so as to ensure that account may be taken of the mutual interests of the Community and Syria.

Article 28

1. If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI of the General Agreement on Tariffs and Trade, it may take appropriate measures against this practice in accordance with the WTO Agreement on the implementation of Article VI of the General Agreement on Tariffs and Trade and related internal legislation.

In order to find such a solution, the Parties shall immediately from the date of receiving the request from the requesting party hold consultations within the Association Committee. If, as a result of the consultations, the Parties do not reach an agreement within thirty days of the initiation of the consultations on a solution to avoid the application of the safeguard measures, the Party intending to apply safeguard measures may apply the provisions of the Article XIX GATT 1994 and the WTO Agreement on Safeguards.

3. In the selection of safeguard measures pursuant this article, the Parties shall give priority to those, which cause least disturbance to the achievement of the objectives of this Agreement. The difficulties arising from the situations referred to in paragraph 1 shall be submitted for examination to the Association Committee. The Committee may take any decision needed to put an end to the difficulties. If it has not taken such a decision within thirty days of the matter being referred to it, the exporting Party may apply appropriate measures on the exportation of the product concerned.
4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be impossible, the Community or Syria, whichever is concerned, may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.
5. Any measures applied pursuant to this Article shall be immediately notified to the Association Committee and shall be subject of period of consultations within that body, particularly with a view to establish a timetable for their elimination as soon as circumstances permit.

CHAPTER II
DISPUTE AVOIDANCE

Article 76

1. The Parties shall endeavour to resolve any differences on the interpretation and application of Titles II to V by entering into good faith consultations with the aim of reaching a mutually agreed solution.
2. A Party shall seek consultations through written request to the other Party, copied to the Trade Committee, stating how a measure adversely affects its rights. The relevant provisions of these Titles must also be cited.
3. Consultations shall be held within 30 days of the request being delivered and will, unless the Parties agree otherwise, be held on the territory of the defending Party. The consultations shall be deemed concluded within 60 calendar days from the date of the consultation request, unless both Parties agree to continue consultations. All information disclosed during the consultations shall remain confidential.

4. If consultations are not held within the timeframe laid down in paragraph 3, and no agreement has been reached on a mutually agreed solution, then the complaining Party may proceed directly to request the establishment of an arbitration panel in accordance with Article 78.

Article 77

Mediation

1. If consultations fail to produce a mutually agreed solution, the Parties may, by mutual agreement, seek recourse to mediation by a mediator appointed by the Trade Committee. Any request for mediation must be made in writing, and state the measure which has been the subject of consultations, as well as the mutually agreed terms of reference for the mediation.
2. The Chairperson of the Trade Committee will appoint within 10 days of receipt of the request a mediator selected by lot from the persons included in the list referred to in Article 79 paragraph 2 who is not a national of either of the Parties. CHAPTER III

DISPUTE SETTLEMENT PROCEDURES

Article 78

Initiation of the arbitration panel

1. Where the Parties have failed to resolve the dispute by recourse to consultations as detailed in Article 76, or where the Parties have had recourse to mediation as detailed in Article 77 and no mutually agreed solution has been notified within 15 days of the issuance of the mediator's opinion, or if a Party fails to comply with the mutually agreed solution, the complaining Party may seek the establishment of an arbitration panel upon written request to the defending Party and simultaneously to the Trade Committee.
2. The complaining party shall state in its request the measure it considers to be in breach of these Titles and indicate the provisions considered relevant.

Article 79

Appointment of arbitrators

1. An arbitration panel shall be composed of three arbitrators.
2. The Trade Committee shall, no later than six months after the entry into force of this Agreement, establish a list of 15 individuals who are willing and able to serve as arbitrators. Each of the Parties may select 5 individuals to serve as arbitrators. The two Parties shall agree on 5 individuals that are not nationals of either Party. The Trade Committee will ensure that the list is always maintained at this level.
3. Arbitrators should have specialised knowledge or experience in law and/or international trade. They should be independent, serve in their individual capacities and not be affiliated with, or take instructions from, any organisation or government⁹, and shall comply with the Code of Conduct set out in Annex VIII.

Article 80

Composition of the arbitration panel

1. Within 10 days from the request for a panel being submitted to the Trade Committee the Parties will consult in order to reach agreement on the composition of the arbitration panel. In the event that the Parties are unable to agree on its composition within this timeframe, either party may request the chairperson of the Trade Committee, or their delegate, to select all three members by lot, drawing one name from each of the three categories of panellists (i.e. the list supplied by each Party composed of their own nationals, and the combined list of non-nationals of either Party). In case the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be appointed by lot from the relevant lists. The arbitration panel will always be composed of a national from each of the parties and a non-national of either party, the latter acting as chairperson.
2. The date of establishment of the arbitration panel shall be the date on which the three arbitrators are selected.
3. Where a Party considers that an arbitrator does not comply with the requirements of the Code of Conduct, the Parties shall consult, and if so agreed, they shall replace the arbitrator and select a replacement pursuant to paragraph 4. In the event that the parties fail to agree on the need to replace an arbitrator, the matter will be referred to the chairperson¹⁰ of the arbitration panel whose decision will be final.

⁹ This does not preclude Government or Civil Servants from being arbitrators. However they should act strictly in an ad personam basis and therefore must not take instructions from either their own National Government or its agencies. The same applies to instructions from any source be it an non-governmental organisation or government of a third country

¹⁰ Where a Party considers that the chairman of the arbitration panel does not comply with the Code of Conduct, then the matter will be referred to one of the remaining members of the pool of third country nationals, their name being drawn by lot by the Trade Committee, unless agreed between the Parties.

4. If an arbitrator is unable to participate in the proceeding, withdraws or is replaced pursuant to paragraph 3, a replacement shall be selected within 5 days in accordance with the selection procedures followed to appoint the original arbitrator. The panel proceedings will be suspended for the period during which this procedure is undertaken.

At the request of a Party, or upon their own initiative, the panel may obtain information from any source it deems appropriate for the panel proceeding. The panel will also have the right to seek the opinion of experts as it deems appropriate. Any information obtained in this manner must be disclosed to both Parties. Interested parties shall be authorised to submit *amicus curiae* briefs to the arbitration panels in accordance with the Rules of Procedure.

Article 83

Article 84

Arbitration panel ruling

1. The arbitration panel shall transmit its ruling to the Parties and the Trade Committee within ninety days following the establishment of the panel. Where it considers that this deadline cannot be met, the chairperson of the panel must notify the Trade Committee and Parties in writing, stating the reasons for the delay. Under no circumstances should the ruling be issued later than one hundred and twenty days following the establishment of the panel.

2. The ruling shall set out the findings of fact, the applicability of the relevant provisions of these Titles and the basic rationale behind any findings and conclusions that it makes.
3. In cases of urgency, including those involving perishable goods, the arbitration panel shall make every effort to issue its ruling within seventy-five days from the establishment of the panel. Under no circumstance should it take longer than one hundred days from the establishment of the panel. The arbitration panel may give a preliminary ruling within ten days from its establishment on whether it deems the case to be urgent.
4. All decisions of the arbitration panel, including the adoption of the ruling, shall be taken by majority vote.
5. The complaining Party may withdraw its complaint by written notification to the chairpersons of the arbitration panel and the Trade Committee, as well as the other Party, at any time before the ruling is transmitted to the Parties and the Trade Committee. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same matter at a later point in time.
6. The arbitration panel may, at the request of both Parties, suspend its work at any time for a period not exceeding twelve months. Once the period of twelve months has been exceeded, the authority for the establishment of the panel will lapse, without prejudice to the right of the complaining Party to request at a later stage the establishment of a panel on the same subject matter.

Article 85

Compliance with Ruling

1. Each Party shall take the measures necessary to comply with the ruling of the arbitration panel, and the Parties will endeavour to agree on the time required in order to implement the ruling.
2. No later than 30 days after the issuance of the ruling to the Parties, the defending Party shall notify the complaining Party of the time-frame (hereinafter "reasonable period of time") it will require for implementation. Both parties should aim to agree on the reasonable period of time.
3. In the event that there is disagreement between the Parties on the reasonable period of time to implement the arbitration panel's ruling, the complaining Party shall request the Trade Committee to reconvene the original arbitration panel to determine its length. Once convened by the Trade Committee, the arbitration panel will issue its ruling within 20 days from the date of its re-establishment. In the event the original panel, or some of its members, is unable to reconvene, then the procedures detailed in Article 80 apply. The period for issuing its ruling in this instance remains 20 days from the date of the panel's establishment.
4. The Party concerned shall notify to the other Party and to the Trade Committee before the end of the reasonable period of time the implementing measures that it has

adopted or intends to adopt in order to comply with the ruling of the arbitration panel.

5. In the event that there is disagreement between the Parties as to the consistency of the measure in relation to these Titles and as notified under paragraph 4 then the complaining Party may seek recourse to the original arbitration panel to rule on the matter upon written application to the Trade Committee stating how the measure is inconsistent with these Titles. Once convened by the Trade Committee the arbitration panel will issue its ruling within 45 days from the date of its re-establishment.
6. In the event the original arbitration panel, or some of its members, is unable to reconvene, then the procedures detailed in Article 80 apply. The period for issuing its ruling in this instance remains 45 days from the date of the panel's establishment.
7. If the Party concerned fails to notify the implementing measures before the expiry of the reasonable period of time the defending Party shall if so requested by the complaining Party, present an offer for temporary compensation. If no agreement on compensation has been reached within 30 days of the end of the reasonable period of time, the complaining Party shall be entitled, upon notification to the Trade Committee, to suspend the application of benefits granted under Titles II to V equivalent to the nullification and impairment caused by the measure that has been found to violate these Titles. The notification shall be delivered simultaneously to the other Party. The complaining Party may implement the suspension ten days after the date of the notification, unless the defending Party has requested arbitration under paragraph 8.
8. If the defending Party considers that the level of suspension is not equivalent to the nullification and impairment caused by the measure, then a written request shall be made to the Trade Committee before the expiry of the ten day period mentioned in paragraph 7 for the reconvening of the original arbitration panel. The Trade Committee shall be informed of the ruling by the arbitration panel on the level of the suspension of benefits within 30 days from the date of the request for its establishment. Benefits shall not be suspended until the arbitration panel has issued its ruling and any suspension shall be consistent with the ruling of the arbitration panel.
9. The suspension of benefits shall be temporary and shall only be applied until the measure found to violate this Title II to V has been withdrawn or amended so as to bring it into conformity with these Titles, or in the case where the Parties have agreed on a resolution of the dispute. If the defending Party considers that it has taken measures to implement the ruling, yet the suspension of benefits is maintained, the defending party may seek recourse to the original arbitration panel for a ruling on whether such suspension should be terminated or modified. The ruling shall be issued within 45 days of the written request for its re-establishment.
10. In the event the original arbitration panel, or some of its members, is unable to reconvene, then the procedures detailed in Article 80 apply. The period for issuing its ruling in this instance remains 45 days from the date of the panel's establishment.

11. All rulings provided for in this Article shall be final and binding and shall be made available to the Trade Committee which will make them publicly available unless it decides by consensus not to do so.
12. Upon the accession of the Syrian Arab Republic to the World Trade Organisation, nothing in this Agreement shall preclude a party from implementing the suspension of benefits that have been authorised by the Dispute Settlement Body of the World Trade Organisation.
