Brussels, 06.02.2006  
COM(2006) 39 final

2006/0011 (COD)

Proposal for a

**REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**establishing the statistical classification of economic activities NACE Rev. 2 and  
amending Council Regulation (EEC) N° 3037/90 and certain EC Regulations on specific  
statistical domains**

(presented by the Commission)

## **EXPLANATORY MEMORANDUM**

### **1) CONTEXT OF THE PROPOSAL**

- **Grounds for and objectives of the proposal**

The statistical classification of economic activities known as NACE Rev. 1 was established in 1990 for the harmonisation of economic statistics. A revised version of NACE is proposed, which takes into account the development of the economy during the last 15 years and a major revision of other international classifications of activities.

- **General context**

Some minor amendments to NACE Rev. 1 have been introduced since its adoption in 1990. The revised version is motivated by the important changes in the economy since 1990 and a major revision of international classifications of activities: as a result, the proposed NACE Rev. 2 is more relevant with respect to the economic reality and more comparable with other international classifications.

- **Existing provisions in the area of the proposal**

Council Regulation (EEC) N° 3037/90 on the statistical classification of economic activities in the European Community: it established NACE Rev. 1.

- **Consistency with other policies and objectives of the Union**

Not applicable.

### **2) CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT**

- **Consultation of interested parties**

*Consultation methods, main sectors targeted and general profile of respondents*

Several consultations have been organised since 2002, including with National Statistical Institutes, as well as European business and trade associations, asking for proposals and modifications of NACE Rev. 1.

*Summary of responses and how they have been taken into account*

All proposals (more than 2000) have been considered and analysed by groups of technical experts.

- **Collection and use of expertise**

There was no need for external expertise.

- **Impact assessment**

The first option was to revise NACE according to principles of relevance with

economic reality, comparability with other international classifications, and continuity with the previous classification.

The only alternative option was not to modify the classification. This would have prevented comparability of statistics with other economies and would have resulted in statistical information that was not adequate to the current needs.

### 3) LEGAL ELEMENTS OF THE PROPOSAL

- **Summary of the proposed action**

Establishment of a revised classification of economic activities and provisions for its implementation in current statistical surveys.

- **Legal basis**

Article 285(1) of the EC Treaty.

- **Subsidiarity principle**

The proposal falls under the exclusive competence of the Community. The subsidiarity principle therefore does not apply.

- **Proportionality principle**

The proposal complies with the proportionality principle for the following reasons.

The proposed Regulation includes a provision which allows Member States to establish a national statistical classification consistent with NACE, allowing them to meet the specific needs of their national economy.

The present proposal represents a balance between the level of detail requested by the main users and the workload in the statistical institutes.

- **Choice of instruments**

Proposed instruments: Regulation.

Other means would not be adequate for the following reason.

The proposed Regulation is amending existing Regulations.

### 4) BUDGETARY IMPLICATION

The proposal has no implication for the Community budget.

### 5) ADDITIONAL INFORMATION

- **Review/revision/sunset clause**

The proposal does include a review clause in article 4(5).

- **European Economic Area**

The proposed act has implications for the EEA and should therefore be extended to the European Economic Area.

Proposal for a

**REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**establishing the statistical classification of economic activities NACE Revision 2 and amending Council Regulation (EEC) N° 3037/90 as well as certain EC Regulations on specific statistical domains**

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285(1) thereof,

Having regard to the proposal from the Commission<sup>1</sup>,

Acting in accordance with the procedure laid down in Article 251 of the Treaty,

Whereas:

- (1) Council Regulation (EEC) N° 3037/90 of 9 October 1990 established the statistical classification of economic activities in the European Community<sup>2</sup> (hereinafter referred to as “NACE Rev. 1”).
- (2) In order to reflect the technological development and structural changes of the economy, an up-to-date classification should be established, to be called NACE Revision 2 (hereinafter referred to as “NACE Rev. 2”).
- (3) An up-to-date classification as NACE Rev. 2 is central to Commission’s ongoing efforts to overhauling Community statistics; it is expected to convey, through more comparable and relevant data, a better economic governance at EC and national levels.
- (4) In order to function, the internal market requires statistical standards applicable to the collection, transmission and publication of national and Community statistics so that undertakings, financial institutions, governments and all other operators in the single market can be provided with reliable and comparable statistical data. To this scope, it is vital that the various categories of the classification of activities in the European Community be interpreted uniformly in all the Member States.

<sup>2</sup> OJ L 293, 24.10.1990, p.1. Regulation as last amended by Regulation (EC) No 1882/2003 of the European Parliament and of the Council (OJ L 284, 31.10.2003, p.1.)

- (5) Reliable and comparable statistics are necessary to enable undertakings to assess their competitiveness, and is useful to the Community institutions in preventing distortions of competition.
- (6) The establishment of a revised common statistical classification of economic activities does not *per se* oblige Member States to collect, publish or supply data. Only if the Member States use classifications of activities linked to the Community classification is it possible to provide integrated information with the reliability, speed, flexibility and degree of detail required for the management of the internal market.
- (7) Provision should be made for the Member States to be able, in order to meet national requirements, to insert in their national classifications additional categories based on the statistical classification of economic activities in the European Community.
- (8) The international comparability of economic statistics requires that the Member States and the Community institutions use classifications of economic activities which are directly linked to the International Standard Industrial Classification of all economic activities (ISIC) Rev. 4, as adopted by the Statistical Commission of the United Nations<sup>3</sup>.
- (9) Use of the classification of economic activities in the Community requires that the Commission be assisted by the Statistical Programme Committee set up by Council Decision 89/382/EEC, Euratom<sup>4</sup> in particular as regards the examination of problems arising from implementation of NACE Rev. 2, the smooth transition from NACE Rev. 1 to NACE Rev. 2, as well as the incorporation of amendments to NACE Rev. 2.
- (10) Council Regulation (EEC) N° 2186/93 of 22 July 1993 established a common framework for setting up statistical business registers with harmonised definitions, characteristics, scope and updating procedures<sup>5</sup>.
- (11) The establishment of a revised statistical classification of economic activities implies to modify specifically the references to NACE Rev. 1 as well to amend a number of relevant instruments. It is therefore necessary to amend Regulation (EEC) N° 3037/90, as well as Council Regulation (EEC) N° 3924/91 of 19 December 1991 on the establishment of a Community survey of industrial production<sup>6</sup>, Council Regulation (EC, Euratom) N° 58/97 of 20 December 1996 concerning structural business statistics<sup>7</sup>, Council Regulation (EC) N° 1165/98 of 19 May 1998 concerning short term statistics<sup>8</sup>, Council Regulation (EC) N° 1172/98 of 25 May 1998 on statistical returns in respect of the carriage of goods by road<sup>9</sup>, Council Regulation (EC) N° 530/1999 of 9 March 1999 concerning structural statistics on earnings and on labour
