GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN UNION,
MEETING WITHIN THE COUNCIL**

**On the conclusion of the Euro-Mediterranean Aviation Agreement between the
European Community and its Member States, on the one hand, and the Kingdom of
Morocco, on the other hand**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1) CONTEXT OF THE PROPOSAL

- **Grounds for and objectives of the proposal**

The Euro-Mediterranean Aviation Agreement between the European Community and the Kingdom of Morocco has been negotiated under a mandate received from the Council in December 2004.

- **General context**

Based on the negotiating directives of the mandate, the text of the Morocco agreement was agreed ad referendum at the final negotiating round on 14 December 2005 and initialled by Vice-president Barrot and Mr. Ghellab, Minister for equipment and transport of Morocco, on the occasion of the first Euromed conference of Transport Ministers held in Marrakech on 15 December 2005. The signature of the agreement is foreseen for the first half of 2006.

- **Existing provisions in the area of the proposal**

There are no existing provisions in the area of the proposal.

- **Consistency with the other policies and objectives of the Union**

The Morocco agreement is the very first step in the process of strengthening the aviation relations between the European Community and the countries neighbouring the EU, as set out in Commission Communication COM(2005) 79 final "Developing the agenda for the Community's external aviation policy".

2) CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT

- **Consultation of interested parties**

Consultation methods, main sectors targeted and general profile of respondents

All throughout the negotiating process, the Commission has been assisted by a Consultative Forum representing the industry that has been involved actively.

Summary of responses and how they have been taken into account

More than 6 meetings have been held with the Consultative forum, where the then current draft of the agreement was provided. All comments have been duly taken into consideration.

- **Collection and use of expertise**

There was no need for external expertise.

- **Impact assessment**

The agreement shall be instrumental in achieving the highest possible degree of

convergence between Morocco and the European Union on matters of economic, social and environmental relevance in the aviation sector:

Economic: the agreement provides for the adoption by Moroccan carriers of the same standards applied by Community carriers on matters of safety, security and competition;

Environment: all environmental regulations applicable to the aviation sector will be also adopted by Morocco;

Social: Morocco will also adopt European standards on social matters pertaining to aviation.

Safeguard provisions are foreseen in the agreement to allow for quick action should any deviation happen.

3) LEGAL ELEMENTS OF THE PROPOSAL

- **Summary of the proposed action**

Due to the advance status of the relationship between Morocco and the European Union, the Morocco agreement will result in the seamless integration of the Moroccan transport market into the single European market through a two-stage approach, always based on the three pillars of the aviation external policy: regulatory convergence (integration of the EC aviation regulations, participation in the Single European Sky) assorted with targeted technical assistance (through instruments such as the PAST), leading to the highest possible degree of market opening. This would result in an unrestricted commercial environment where operators are free to take commercial decisions, and where they operate under the highest standards in the areas of aviation safety, aviation security, environmental and consumer protection.

- **Legal basis**

Article 80(2), in conjunction with the first sentence of the first subparagraph of Article 300(2) and Article 300(4) thereof

- **Subsidiarity principle**

The subsidiarity principle applies insofar as the proposal does not fall under the exclusive competence of the Community.

The objectives of the proposal cannot be sufficiently achieved by the Member States for the following reason(s).

The Euro-Mediterranean agreement in the field of aviation between the Community and the Kingdom of Morocco is not merely an agreement to open markets between the two parties but also includes an extensive alignment of aviation legislation with key parts of the Community rules and regulations, including on safety, economic regulation and in particular competition laws, air traffic management and consumer protection. The agreement would also offer a gradual opening of market access between Morocco and the EU, providing substantial opportunities for passengers and industry on both sides. Finally, this agreement provides a concrete example of what can be achieved

within the Euro-Mediterranean partnership

Community action will better achieve the objectives of the proposal for the following reason(s).

The agreement allows for the simultaneous extension of its terms to the 25 Member States, applying the same rules without discrimination and benefiting all Community air-carriers regardless of their nationality. These carriers can now operate freely from any point in the European Union to any point in Morocco.

Market opportunities will also increase: with a Moroccan population of around 31 million and an EU population of 450 million, current annual growth of air traffic is already around 7%. Removal of all capacity limitations between Morocco and the EU may also attract new entrants to the market and create opportunities to operate to underserved airports. New rights in code-sharing and wet-lease will provide further opportunities to the carriers and develop the market.

Furthermore, the alignment of aviation legislation can only be achieved at Community level, since Community rules and regulations are included in the scope of the agreement.

The proposal therefore complies with the subsidiarity principle.

- **Proportionality principle**

The proposal complies with the proportionality principle for the following reason(s).

From Phase 1, a joint body is established to discuss matters related to the implementation of the Agreement as well as decide the integration of new legislation into it. The Joint Committee will seek for the evolution of the Agreement, address social issues and economic proposals on ownership and control. The Joint Committee will be composed of representatives of the Commission and the Member States.

Furthermore, Member States will continue to carry out the traditional administrative tasks they execute in the context of international air transport, but under common rules applied uniformly.

- **Choice of instruments**

Proposed instruments: other.

Other means would not be adequate for the following reason(s).

Bilateral aviation relations can only be instrumented in international agreements.

4) **BUDGETARY IMPLICATION**

The proposal has no implication for the Community budget.

5) **ADDITIONAL INFORMATION**

- **Simulation, pilot phase and transitory period**

There was or there will be a transitory period for the proposal.

- **European Economic Area**

The proposed act concerns an EEA matter and should therefore extend to the European Economic Area.

 - (i) the right to perform its own groundhandling ("self-handling") or, at its option
 - (ii) the right to select among competing suppliers that provide groundhandling services in whole or in part where such suppliers are allowed market access on the basis of the laws and regulations of each Party, and where such suppliers are present in the market.
- b) For the following categories of groundhandling services i.e. baggage handling, ramp handling, fuel and oil handling, freight and mail handling as regards the physical handling of freight and mail between the air terminal and the aircraft, the rights under (i) and (ii) in sub-paragraph (a) above shall be subject only to specific constraints of available space or capacity arising from the need to maintain safe operation of the airport. Where such constraints preclude self-handling and where there is no effective competition between suppliers that provide groundhandling services, all such services shall be available on both an equal and an adequate basis to all air carriers; prices of such services shall not exceed their Full Cost including a reasonable return on assets, after depreciation.

4. Any air carrier of each Party may engage in the sale of Air Transport in the territory of the other Party directly and/or, at the air carrier's discretion, through its sales agents or other intermediaries appointed by the air carrier. Each air carrier shall have the right to sell such transportation, and any person shall be free to purchase such transportation, in the currency of that territory or in freely convertible currencies.
5. Each air carrier shall have the right to convert and remit from the territory of the other Party to its home territory and, except where inconsistent with generally applicable law or regulation, to the country or countries of its choice, on demand, local revenues. Conversion and remittance shall be permitted promptly without restrictions or taxation in respect thereof at the rate of exchange applicable to current transactions and remittance on the date the carrier makes the initial application for remittance.
6. The air carriers of each Party shall be permitted to pay for local expenses, including purchases of fuel, in the territory of the other Party in local currency. At their discretion, the air carriers of each Party may pay for such expenses in the territory of the other Party in freely convertible currencies according to local currency regulation.
7. In operating or holding out services under the Agreement, any air carrier of a Party may enter into co-operative marketing arrangements, such as blocked-space agreements or code-sharing arrangements, with:
 - a) any air carrier or carriers of the Parties; and
 - b) any air carrier or carriers of a third country; and
 - c) any surface, land or maritime carriers;provided that (i) all participants in such arrangements hold the appropriate authority and (ii) the arrangements meet the requirements relating to safety and competition normally applied to such arrangements. In respect of passenger transport sold involving code-shares, the purchaser shall be informed at the point of sale, or in any case before boarding, which transportation providers will operate each sector of the service.
8. (a) In relation to the transport of passengers, surface transportation providers shall not be subject to laws and regulations governing air transport on the sole basis that such surface transportation is held out by an air carrier under its own name. Surface transportation providers have the discretion to decide whether to enter into cooperative arrangements. In deciding on any particular arrangement, surface transportation providers may consider, among other things, consumer interests and technical, economic, space, and capacity constraints.
 - (b) Moreover, and notwithstanding any other provision of this Agreement, air carriers and indirect providers of cargo transportation of the Parties shall be permitted, without restriction, to employ in connection with International Air Transport any surface transportation for cargo to or from any points in the territories of Morocco and the European Community, or in third countries, including transport to and from all airports with customs facilities, and

including, where applicable, the right[s] to transport cargo in bond under applicable laws and regulations. Such cargo, whether moving by surface or by air, shall have access to airport customs processing and facilities. Air carriers may elect to perform their own surface transportation or to provide it through arrangements with other surface carriers, including surface transportation operated by other air carriers and indirect providers of cargo air transport. Such intermodal cargo services may be offered at a single, through price for the air and surface transportation combined, provided that shippers are not misled as to the facts concerning such transportation.

2. There shall also be exempt, on the basis of reciprocity, from the taxes, levies, duties, fees and charges referred to in paragraph 1 of this Article, with the exception of charges based on the cost of the service provided:
 - a) aircraft stores introduced into or supplied in the territory of a Party and taken on board, within reasonable limits, for use on outbound aircraft of an air carrier of the other Party engaged in international air transport, even when these stores are to be used on a part of the journey performed over the territory of the Party in which they are taken on board;
 - b) ground equipment and spare parts (including engines) introduced into the territory of a Party for the servicing, maintenance, or repair of aircraft of an air carrier of the other Party used in international air transport;

 - d) printed matter, as provided for by the customs legislation of each Party, introduced into or supplied in the territory of one Party and taken on board for

- e) safety and security equipment for use at airports or cargo terminals.
3. This Agreement does not exempt fuel supplied by a Party to air carriers within its territory from taxes, levies, duties, fees, and charges similar to those referred to in paragraph 1. While entering, within, or leaving the territory of one Party, its laws and regulations relating to the sale, supply, and use of aircraft fuel shall be complied with by the other Party's air carriers.
 4. Equipment and supplies referred to in paragraphs 1 and 2 of this Article may be required to be kept under the supervision or control of the appropriate authorities.
 5. The exemptions provided by this Article shall also be available where the air carriers of one Party have contracted with another air carrier, which similarly enjoys such exemptions from the other Party, for the loan or transfer in the territory of the other Party of the items specified in paragraphs 1 and 2 of this Article.

Article 10

User Charges

1. Party shall not impose or permit to be imposed on the air carriers of the other Party user charges higher than those imposed on its own air carriers operating similar international air services.
2. Increased or new charges should only follow adequate consultation between the competent charging authorities and the air carriers of each Party. Reasonable notice of any proposals for changes in user charges should be given to users to enable them to express their views before changes are made. The Parties shall also encourage the exchange of such information as may be necessary to permit an accurate assessment of the reasonableness of, justification for and apportionment of the charges in accordance with the principles of this Article.

2. The Parties shall ensure that aircraft registered in one Party suspected of non-compliance with international aviation safety standards established pursuant to the Convention landing at airports open to international air traffic in the territory of the other Party shall be subject to ramp inspections by the competent authorities of that other Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its crew and the apparent condition of the aircraft and its equipment.
3. Either Party may request consultations at any time concerning the safety standards maintained by the other Party.
4. Nothing in this Agreement shall be construed to limit the authority of the competent authorities of a Party to take all appropriate and immediate measures whenever they ascertain that an aircraft, a product or an operation may:
 - a) Fail to satisfy the minimum standards established pursuant to the Convention or the legislation specified in Annex 6.A, whichever is applicable, or
 - b) Give rise to serious concerns – established through an inspection referred to in paragraph 2 – that an aircraft or the operation of an aircraft does not comply with the minimum standards established pursuant to the Convention or the legislation specified in Annex 6.A, whichever is applicable, or
 - c) Give rise to serious concerns that there is a lack of effective maintenance and administration of minimum standards established pursuant to the Convention or the legislation specified in Annex 6.A, whichever is applicable.

Article 14

Aviation Security

1. The assurance of safety for civil aircraft, their passengers and crew being a fundamental pre-condition for the operation of international air services, the Parties reaffirm that their obligations to each other to provide for the security of civil aviation against acts of unlawful interference (and in particular their obligations under the Chicago Convention, the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at The Hague on 16 December 1970, the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971 and the Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, signed at Montreal on 24 February 1988 and the Convention on the marking of plastic explosives for purpose of detection signed at Montreal on 1 March 1991, in so far as both contracting Parts are parties to these conventions as well as all other conventions and protocols relating to civil aviation safety of which both Parties are members).

3. The Parties shall, in their mutual relations, act in conformity with the aviation security Standards and, so far as they are applied by them, the Recommended Practices established by the International Civil Aviation Organisation and designated as Annexes to the Chicago Convention, to the extent that such security provisions are applicable to the Parties. Both Parties shall require that operators of aircraft of their registry, operators who have their principal place of business or permanent residence in their territory, and the operators of airports in their territory, act in conformity with such aviation security provisions.
4. Each Party shall ensure that effective measures are taken within its territory to protect aircraft, to screen passengers and their carry-on items, and to carry out appropriate checks on crew, cargo (including hold baggage) and aircraft stores prior to and during boarding or loading and that those measures are adjusted to meet increases in the threat. Each Party agrees that their air carriers may be required to observe the aviation security provisions referred to in paragraph (3) required by the other Party, for entrance into, departure from, or while within, the territory of that other Party. Each Party shall also act favourably upon any request from the other Party for reasonable special security measures to meet a particular threat

5. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports or air navigation facilities occurs, the Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.
6. When a Party has reasonable grounds to believe that the other Party has departed from the aviation security provisions of this Article, that Party may request immediate consultations with the other Party.
7. Without prejudice to Article 4 (Revocation of Authorisations) of this Agreement, failure to reach a satisfactory agreement within fifteen (15) days from the date of such request will constitute grounds to withhold, revoke, limit or impose conditions on the operating authorization or technical permission of the air carriers of both Parties.
8. When required by an immediate and extraordinary threat, a Party may take interim action prior to the expiry of fifteen (15) days.
9. Any action taken in accordance with the paragraph 7 above shall be discontinued upon compliance by the other Party with the provisions of this Article.

3. With a view to facilitating the application of the Single European Sky legislation in their territories:
 - a) Morocco shall take the necessary measures to adjust their air traffic management institutional structures to the Single European Sky, in particular by establishing pertinent national supervisory bodies at least functionally independent of air traffic management service providers; and
 - b) The European Community shall associate Morocco with relevant operational initiatives in the fields of air navigation services, airspace and interoperability that stem from the Single European Sky, in particular through the early involvement of Morocco's efforts to establish functional airspace blocks, or through appropriate coordination on SESAR.
