

# The upcoming Trump Presidency

The Republican candidate, Donald Trump, won the US presidential election on 8 November, unexpectedly defeating the Democratic nominee, former Secretary of State Hilary Clinton, after a bitter campaign during which the business tycoon, with little political experience, made a number of controversial promises to radically change the government's policies on migration, health care, climate change, international trade and NATO.

This note offers links to **recent commentaries and reports published by major international think tanks and other research centres** in response to the US election outcome. Analyses published before the ballot can be found in a [previous edition](#) of 'What think tanks are thinking.'
