

## LOOKING FOR DOCUMENTS IN THE REGISTER

### General:

- You can combine criteria when searching:  
E.g. keyword and document type  
keyword and author  
author and document type  
keyword and document type and date  
keyword and author and document type and date
- If you do not have any criteria for your search, click on **By document type** and expand the relevant item in the menu until you find what you are looking for. Then narrow down the results using the filters displayed to the left of the results pane.

### 1. KEYWORD SEARCH

Type the word into the **Keyword** box (the system will suggest terms on the basis of the first three letters you enter).

Click on **SEARCH**.

Then narrow down the results using the following filters displayed to the left of the results pane:

Year  
Authority  
Author  
Document type  
Topic (based on Eurovoc descriptors <http://eurovoc.europa.eu/>)  
Parliamentary term  
Available languages

You can also enter figures in the **Keyword** box, but this would bring up all documents which have those figures in their title or text.

E.g. 009287 would return the written questions with that number for 2010, 2011, 2012 and 2013.

### 2. MORE CRITERIA (advanced search)

- **REGISTER REFERENCE**

Click on **More criteria**

Type the reference into the **Register Reference** box in the appropriate format<sup>1</sup>.

E.g. P7\_A(2013)0253  
P7\_QE(2013)009287  
JURI\_PR(2013)516765

---

<sup>1</sup> See Annex 1

- **OTHER REFERENCES**

If you know a reference, but it is not in Register format, type it into the **Other References** box (use of the pop-up menu to the right of the box is optional). This will bring up all documents linked to that reference.

E.g. 2008/0090 (COD): all the documents forming part of that procedure will be retrieved.

A8-0001/2014: all the documents linked to that reference will be retrieved.

### 3. SPECIAL CASES

#### *PE number search*

Type in the six-figure PE number separated by a dot (e.g.: **508.018**) either under **Keyword** or under **Other References**.

#### *Parliamentary questions*

Typing a question number in the standard format (e.g. **E-005915/2013**) into the **Other References** box will return the question **and** the answers (plus any annexes attached to the answer).

If, however, you were to enter the same question number, E-005915/2013, in the **Keyword** box, thousands of results would be generated, as the search engine would interpret the reference as a keyword and would retrieve everything containing 'E' and everything containing '2013' (more than 200 000 results).

### 4. LEGISLATIVE PROCEDURES

If you are looking for documents relating to a specific legislative procedure, the most comprehensive results will be retrieved if you enter the procedure number.

*Format: year/number(PROCEDURE TYPE) – N.B. capitals with no spaces*

E.g. 2008/0090(COD)

2012/2258(INI)

2013/0120A(NLE)

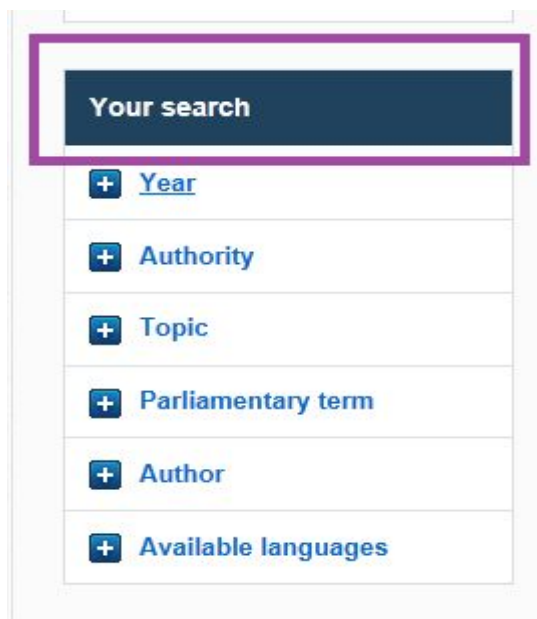

## FAQs

### 1. How do I search for a document if I don't know the reference?

If you don't know the exact reference, you can retrieve all documents of a certain type for a certain year by entering the first part of the register reference and replacing the document identifier (figures) with an asterisk, as follows:

P8\_TA-PROV(2014)\*  
P7\_TA(2013)\*  
LIBE\_OJ(2014)\*  
ENVI\_PV(2014)\*

You can then narrow down the results using the filters displayed to the left of the results pane.

**2. Are all the documents available in my language?** Some documents (e.g. studies) are not available in all languages. Whatever language you run the search in, the system will also retrieve the French, English and German results.

Information on the language versions available can be found under **Available languages** (in the **Your search** pane).

The screenshot displays a search interface with two main panels. On the left is a filter pane with two sections: 'Your criteria' and 'Your search'. The 'Your criteria' section shows 'Document type' with a selected filter for 'Reports'. The 'Your search' section lists several filter categories: 'Year', 'Authority', 'Topic', 'Parliamentary term', 'Author', and 'Available languages'. The 'Available languages' filter is highlighted with a purple box. On the right is the search results pane, which has 'CLOSE ALL' and 'OPEN ALL' buttons at the top. Below these buttons is a hierarchical tree of search results. The root level is '-1 Documents relating to parliamentary activity'. Underneath are several sub-levels, including '-1.1 The European Parliament's Rules of Procedure', '-1.2 Plenary documents', '-1.3 Documents relating to Members' activities', and '-1.4 Committee documents'. Under '-1.4 Committee documents', there are 11 sub-items, with '-1.4.7 Reports' highlighted in blue. Below the search results is a section titled 'Search results'.

### 3. How can I search for documents produced by a specific Member?

Type his or her name into the **Author** box. You can either combine this with other criteria, such as dates if you're interested in a given period, or document type (e.g. written questions), or run the search on the basis of the name alone, and then narrow down the results using the filters displayed to the left of the results pane.

## Annex I
