COORDINATORS' RESULTS

- not to be treated in full committee -
Wednesday, 27 February 2019, 11.30-12.30
Room JAN 2Q2

27.02.2019

Ms Vălean, Chair
Mr Belet, Acting Coordinator of the EPP group
Ms Dalli, Coordinator of the S&D group
Mr Gerbrandy, Coordinator of the ALDE group
Mr Eickhout, Coordinator of the Greens/EFA group
Ms Boylan, Acting Coordinator of the GUE/NGL group
Ms Reid, Coordinator of the EFDD group

For item 2: Ms Borzan, EMA contact person

1. ADOPTION OF DRAFT AGENDA

The draft agenda was adopted in the form shown in these minutes

2. APPOINTMENTS IN EMA

In the presence of Ms Borzan, EMA contact person

3.1 Appointments in EMA

3.1.1 Appointment of representatives of patients' associations/clinicians' associations in the Committee for Advanced Therapies (CAT)

Decision taken: *Coordinators recommended the following:*
Patients' organisations:
Full members: Ms Sollerbrant and Mr Breen
Substitutes: Ms Meheus and Mr Pochet
Reserve list: Mr Ricciardi and Mr Breier

Clinicians' organisations:

Full members: Mr Aiuti and Ms Poulsen

Substitutes: Mr Gaensbacher and Ms Renieri

Reserve list: Mr Bernard and Mr Abou-El-Enein

Following a final decision by the Conference of Presidents the President would forward the position of the European Parliament to the Commission.

3.1.2 Appointment of civil society representatives in the Management Board

Decision taken: *Coordinators recommended the following:*

- *Mr Ludwig (doctors' organisations)*
- *Ms de Briyne (veterinarians' organisations)*
- *Mr Greco and Ms Sundseth (patients' organisations)*

The ENVI Committee recommendation for the appointment of the four members of the Management Board will be forwarded to the Conference of Presidents, who will adopt a formal recommendation and inform the Council.

3. CHAIR'S ANNOUNCEMENTS

3.1 Main issues discussed at last CCC meeting

3.1.1 Brexit opinion

The Chair informed about the latest Conference of Presidents decisions on Brexit, namely that the opinions could only be adopted after a meaningful vote in the House of Commons.

3.2 Issues with other committees on resolutions addressing topics under ENVI competence

The Chair informed that two committees (AGRI and PETI) are envisaging adopting resolutions on topics under ENVI exclusive competence, contradicting recent ENVI (and EP) positions on the same topics.

Decision taken: *On the AGRI resolution on large predators, the Chair was mandated to raise the issue with the President asking that the resolution be removed from the agenda and that the proper procedure be followed in the competent committee.*

On the PETI resolution the Chair will informally address the PETI Chair to raise the ENVI concerns.

3.3 Electoral leave for Commissioner Andriukaitis

The Chair informed that the Commission President had granted Commissioner Andriukaitis unpaid electoral leave to be candidate in the Presidential elections in Lithuania. During his absence his portfolio will be transferred to VP Katainen.

3.4 Cancellation of mission to ECDC

The Chair informed that the planned mission to ECDC in Stockholm (to take place on 28 February-1 March) had to be cancelled due to lack of participants.

8.3 Rolling check-list on reporting and review clauses in EU legislation

The updated rolling check-list was included in the file.

8.4 Case-law of interest for the ENVI Committee

- **Judgement of 22 November 2018 in Case C-151/17, *Swedish Match AB v Secretary of State for Health***

The file included an information note from the EP Legal Service on the judgment of the Court of Justice on a preliminary reference from the Verwaltungsgericht Berlin (Administrative Court, Berlin, Germany) concerning the interpretation and validity of various provisions of the Tobacco Products Directive 2014/40/EU, mainly relating to the prohibition of flavourings and the prohibition of

advertising of flavourings in cigarettes and roll-your-own ('RYO') tobacco. In its judgement the Court analyses in particular the differentiated time-frame for applying the prohibition on flavoured products, the time-frame for applying labelling and packaging requirements and the prohibition on the use of trademarks referring to specific flavours and upholds the validity of all the contested provisions of the Directive.

8.5 Documents recently published by the European Court of Auditors

Briefing paper on “The EU’s response to the “dieselgate” scandal”

This briefing paper sets out the actions taken, at the level of the European Union and Member States, and describes changes made to the system for measuring vehicle emissions after September 2015. The paper does not seek to assess whether the actions taken and proposed have solved the problem.

Special report “European Fund for Strategic Investments: Action needed to make EFSI a full success” (No 03/2019)

This report stresses that EFSI was effective in raising finance to support additional investment within the EU from its launch in 2015, until July 2018. It found that by mid-July 2018, the EIB had approved EUR 65.5 billion of financing, more than the indicative volume of finance to be raised of EUR 61 billion. In particular, EFSI support enabled the EIB to achieve a four-fold increase in its higher-risk financing operations compared to 2014.

However, the Court showed that some EFSI projects could have been financed by private and other public sources or by the EIB itself, although on different terms. Project promoters preferred EFSI financing because it was either cheaper or offered a longer payback period. The Court also questioned the reported estimate of additional investment mobilised of EUR 335 billion. In some cases, the methodology used overstated the extent to which EFSI support actually induced additional investment in the real economy. In addition, the reported amounts do not take account of the fact that some EFSI operations replaced other EIB operations and EU financial instruments. The lack of comparable performance and monitoring indicators for all EU financial instruments and budgetary guarantees diminishes transparency and the ability to assess results.

Special report on “Chemical hazards in our food: EU food safety policy protects us but faces challenges” (No 02/2019)

The Court found that although the EU’s system for protecting consumers from chemical hazards in food is soundly based and respected worldwide, it is currently overstretched. The European Commission and the Member States do not have the capacity to implement the system fully. For the Court, the legal framework governing chemicals in food, feed, and plants and live animals remains a work in progress and has not yet been implemented to the level envisaged in EU laws governing food production. In addition, the European Food Safety Authority, which provides scientific advice to inform European policymaking, suffers backlogs in its work in connection with chemicals. This affects the proper functioning of parts of the system and the sustainability of the model as a whole.

New online portal on Public audit in the European Union

The Court launched on 24 January the first edition of Public Audit in the European Union, an online portal containing information on the work and role of the 29 supreme audit institutions (SAIs) in the EU and its Member States. The portal illustrates the SAIs’ contribution to the effective functioning of democracy and provides an overview of their mandate, status, organisation, work and output, as well as identifying the differences and similarities between them.

8.6 *State of play of annual scrutiny plan*

The updated scrutiny plan was included in the file.

8.7 *ENVI expertise budget use in 2018*

The ENVI expertise budget is dedicated to the funding of expertise services (workshops, briefing notes and studies) provided by the Policy Department A. Annually the Policy Department A, that is also in charge of the expertise budget management, provides a summary of the level of expenditure and the amount and the type of services provided.

8.8 *Implementing and Delegated Acts - General Early Warning in view of elections recess*

1. **Background**

Based on the Inter-institutional Agreement on the European election recess period in 2019 for the transmission of delegated acts and draft RPS measures (“the Recess Agreement”), **the Commission will not formally transmit any delegated acts or final draft RPS measures** to the European Parliament and the Council **from Friday 15 March 2019**, except if certain special cases require this (see below).

Transmission may re-start:

- for final draft RPS measures, from Wednesday 10 July 2019;
- for delegated acts, from Thursday 18 July 2019;

The recess period does not apply to implementing acts. The Commission will continue to send to the Parliament all draft and final implementing acts

Special cases - during the recess period, the Commission may still adopt (thus, the recess period does not apply):

- a. delegated acts under the urgency procedure, or
- b. RPS measures falling under the urgency procedure or curtailment of deadlines;
- c. delegated acts or RPS measures, the adoption and entry into force of which are needed in order to comply by a specific deadline fixed by a legal act of the EU or by international law, or in case there is an urgent need to address situations resulting from the withdrawal of the United Kingdom from the EU.

List of RPS measures, delegated acts, as well as implementing acts under preparation

As required under the Recess Agreement, the Commission has sent to the Parliament and to the Council, the list of acts planned to be adopted in the coming months (please see the table annexed to these notes). In part 3 of that table, the acts for which the recess period does not apply are listed. Please note that the letter from the Commission accompanying the information described above includes a disclaimer stressing that the list described above is purely indicative, drawn up for planning purposes only, without committing the Commission in no way.

2. Scrutiny planning of comitology measures before recess period:

As of the 1st of March, until the start of the recess period (15 March), ENVI Secretariat will send three sets of comitology newsletters/week (instead of two, as it does currently). The internal deadlines for objections will be of one week, or shorter than that, as well as the internal procedure, to allow the committee to deal with possible objections as soon as possible, preferably in March.

3. Scrutiny planning of comitology measures after recess period:

A. Measures raising no special issue as regards EP scrutiny

Type of measure	Parliament's scrutiny
<p>Final draft RPS measures (EP has veto right, deadline usually 3 months)</p>	<p>The Commission will not formally transmit/adopt such acts from Friday 15 March 2019; transmission may re-start from Wednesday 10 July 2019.</p> <p>ENVI Members will be informed of these measures, and be given a deadline to object to the measures concerned, when the ENVI Secretariat resumes the comitology newsletters, in principle, at the end of August 2019. The internal deadline for objections to these measures will be set for the beginning of September 2019.</p>
<p>Delegated acts (EP has veto right, deadline usually 2 months with the possibility to ask for an extension of another 2 months)</p>	<p>The Commission will not formally transmit/adopt such acts from Friday 15 March 2019; transmission may re-start from Thursday 18 July 2019.</p> <p>ENVI Members will be informed of these measures, and be given a deadline to object to the measures concerned, when the ENVI Secretariat resumes the comitology newsletters, in principle, at the end of August 2019. The internal deadline for objections to these measures will be set for the beginning of September 2019.</p>
<p>Implementing acts (EP has no power of veto - thus, no formal deadline)</p>	<p>The Commission will continue to prepare, adopt and send to the Parliament all draft and final implementing acts.</p> <p>ENVI Members will be informed of these measures, and be given a deadline to object to the measures concerned, when the ENVI Secretariat resumes the comitology newsletters, in principle, at the end of August 2019. The internal deadline for objections to these measures will be set for the beginning of September 2019.</p>
<p>Delegated acts under the urgency procedure (EP has veto right, deadline usually 2 months)</p>	<p>The Commission may adopt delegated acts under the urgency procedure, during the recess. However, the time limit for Parliament to object to such measures will start to run only on 18 July 2019.</p> <p>If the Secretariat receives such measures, ENVI Members will be informed thereof, and be given a deadline to object to the measures concerned, by a comitology newsletter sent in July to allow for the possibility to adopt an objection in plenary within the deadline.</p>

B. Measures on which EP scrutiny will be limited

RPS measures falling under the urgency procedure or curtailment of deadlines (EP has veto right, deadline usually 2 months)	The Commission has listed these measures in the part 3 of the indicative list (see table annexed to these notes). Parliament will not be able to object to these measures. ENVI Members will be informed of these measures as soon as the ENVI Secretariat resumes the comitology newsletters.
Delegated acts or RPS measures, the adoption and entry into force of which are needed in order to comply by a specific deadline fixed by a legal act of the EU or by international law, or in case there is an urgent need to address situations resulting from the withdrawal of the United Kingdom from the EU.	The Commission has listed these measures in the part 3 of the indicative list (see table annexed to these notes). Parliament will, in principle, not be able to object to these measures; during the recess, the Commission may transmit these measures to the Parliament and thus trigger the start of the objection period. ENVI Members will be informed of these measures as soon as the ENVI Secretariat resumes the comitology newsletters.

9. ANY OTHER BUSINESS

The ALDE coordinator raised the issue of the AGRI decision to postpone their vote on the CAP strategic Plans to a date that makes it very unlikely to hold a plenary vote, as well as the lack of involvement of the ENVI Committee in this decision.

Decision taken: *The Chair was mandated to raise the issue with the Conference of Presidents.*

10. NEXT COORDINATORS' MEETING

No coordinators' meeting is currently planned for March. Next coordinators' meeting is planned to take place in July.
