Amendment 285

Article 6 a (new)

*Within six months of this Directive's entry into force, the Commission, in cooperation with the Member States, shall elaborate and define all the procedures and administrative standards required to regulate access to and the exercise of service activities. In particular, the Commission shall, in cooperation with the Member States, define the specific competences and functions of the single points of contact and plan and draw up forms.*

Or. it

*Justification*

*The establishment of a single procedural system in all the Member States substantially reduces possible future disputes. This would provide a definition of harmonisation measures shared by all Member States with a view to avoiding unfair competition practices which may be prejudicial to the rights of workers and businesses.*

Amendment 286

Article 11, paragraph 3 a (new)

***3a. A general public register shall be set up in the single points of contact, indicating the names of companies from which authorisation has been withdrawn for making false or deceitful declarations at the time of the request.***

Or. it

*Justification*

*For the purpose of administrative transparency and legal certainty.*

Proposal for a directive (COM(2004)0002 – C5-0069/2004 – 2004/0001(COD))

Text proposed by the Commission

Amendment by Parliament

Amendment 287  
Article 41 a (new)

***One year after the entry into force of this Directive, a national Observatory shall be set up in each Member State, which shall draw up an annual report to be submitted to the Commission on implementation of the Directive.***

***The Observatory's aims shall be:***

***- to check that the actual implementation of the Directive does not violate workers' rights and does not lead to social dumping practices;***

***- to check that all rules on the protection of health, security and hygiene at work have been fully implemented to workers;***

***- to check that all services which the individual Member State considers to be of general interest have actually been excluded from the Directive's scope.***

Or. it

*Justification*

*For the purposes of legal certainty, it is important to check that the Directive is not aimed at removing social security charges or to introduce unfair competition practices at the expense*

*of the European Union's economic and social cohesion. It is also important to leave to the Member State's discretion the decision as to which services should be excluded from the Directive's scope because they are, in its opinion, of general interest.*

Services in the internal market

Proposal for a directive (COM(2004)0002 – C5-0069/2004 – 2004/0001(COD))

Text proposed by the Commission

Amendment by Parliament

Amendment 288  
Article 43 (new)

*Within two years of this Directive's entry into force, the Commission shall submit a report to the European Parliament on the implementation of the Directive. The aim of the report shall be to verify that it is being applied correctly and to check that, in its practical implementation, the Directive:*

- does not violate rules on the protection of workers' and consumers' rights;*
- does not favour any social dumping practices;*
- is not prejudicial to social dialogue and industrial relations;*
- does not infringe social security provisions;*
- does not violate rules on the protection of health and security at work.*

Or. it

*Justification*

*The shortening of the deadline from three to two years is justified by the fact a short term verification will enable Member States to make the most appropriate amendments in order to achieve the Directive's aims by improving its implementation.*
