Proposal for a regulation

Amendment 54 shall be replaced by the following:

Amendment 54

Proposal for a regulation – amending act Article 7 – paragraph 2

Text proposed by the Commission

(2) The entry of a novel food in the Community list shall include a specification of the food, *and, where appropriate, specify the conditions of use, additional specific labelling requirements to inform the final consumer and/or a post-market monitoring requirement.*

Amendment

(2) The entry of a novel food in the Community list shall include:

- (a) a specification of the food;
- (b) *the intended use of the food;*

- (c) the conditions of use;*
- (d) the date of entry of the novel food in the Community list and the date of receipt of the application;*
- (e) the name and address of the applicant;*
- (f) the date and results of the last inspection according to the monitoring requirements laid down in Article 11;*
- (g) the fact that the novel food may only be placed on the market by the applicant specified in point (e), unless a subsequent applicant obtains authorisation for the food without reference to the proprietary data of the original applicant.*

Justification

It is important to require these information from ALL novel foods (not only the ones referred to in Article 7- paragraph 3- first subparagraph; as proposed by the Commission!) in order to enable transparency.

(This amendment was adopted in committee but missing from the text sent for translation.)
