**Paragraph 45**

*Motion for a resolution*

45. Calls, therefore, on the Commission to ***introduce indirect*** land use change (***ILUC***) ***factors*** in order to take account of the greenhouse gas emissions attributable to changes in land use patterns ***caused by biofuels production; highlights that increasing greenhouse gas saving thresholds for biofuels would not address the risks of ILUC;***

*Amendment*

45. Calls, therefore, on the Commission to ***follow a broader approach on the issue of ILUC and to promote adequate protection of the environment in third countries affected by*** land use change ***bilaterally and multilaterally*** in order to take account of the greenhouse gas emissions attributable to changes in land use patterns; ***this could be achieved through the introduction of additional sustainability requirements on certain categories of biofuels imported from third countries;***

**Motion for a resolution**

**Paragraph 98**

*Motion for a resolution*

98. ***Calls for*** the 30 % greening component of the CAP ***direct payments*** to operate as an EU-wide incentive scheme targeted on enhancing nutrient, energy and ***carbon*** efficiency by focusing on increasing carbon soil sequestration, reducing GHG emissions, and improving nutrient management, ***thus making EU agriculture both more competitive and more sustainable;***

*Amendment*

98. ***Supports*** the greening component of the CAP to operate as an EU-wide incentive scheme targeted on enhancing nutrient, energy and ***climate*** efficiency by focusing on increasing carbon soil sequestration, ***further*** reducing GHG emissions and improving nutrient management; ***the aims of this scheme would be to ensure the competitiveness of farms and long-term food security through a more effective management of limited natural resources;***

**Motion for a resolution**

**Paragraph 104**

*Motion for a resolution*

104. Calls for ***specific targets*** for EU land use, land use change and forestry (LULUCF), ensuring ***the*** permanence and environmental integrity of the sector's contribution to emissions reduction, ***as well as accurate monitoring and accounting***;

*Amendment*

104. Calls for ***a strategy*** for EU land use, land use change and forestry (LULUCF), ensuring permanence and ***the*** environmental integrity of the sector's contribution to emissions reduction; ***encourages Member States to develop their national policies in order to deliver the mitigation potential of their respective LULUCF sectors, with regard to the principle of subsidiarity, since this could help to obtain valuable experience; underlines the need to invest in scientific research on storage capacity and emissions from LULUCF activities***;
