Motion for a resolution

Amendment

Y. whereas *over EUR 1 trillion need to be invested in the EU energy sector by 2020 alone, and whereas for every euro not invested in the energy infrastructure before 2020, 4.3 euro would be needed after 2020 to achieve the same goals, which would put an undue burden on future generations;*

Y. whereas *the high energy prices within the EU Member States are mainly due to the taxation of, and fees on, conventional energy sources in order to subsidise renewables;*
