**Motion for a resolution**

**Paragraph 1**

*Motion for a resolution*

1. **Welcomes** the Communication on ‘A Digital Single Market Strategy for Europe’; considers that achieving a Digital **Single** Market, based on a **common** set of rules, could foster **EU** competitiveness, have positive effects on growth and jobs, relaunch the **Single Market and make society more inclusive**, offering new opportunities to citizens and businesses, especially by exchanging and sharing innovation, **believes** that the **horizontal approach taken needs now to be strengthened in its implementation, including the timely adoption of the 16 initiatives, as the digital drivers affect each and every citizen and dimension of society and the economy**;

*Amendment*

1. **Notes** the Communication on ‘A Digital Single Market Strategy for Europe’; considers that achieving a Digital Market, based on a **negotiated** set of rules, could foster **Member States’** competitiveness, have positive effects on growth and jobs **and** relaunch the **economy**, offering new opportunities to citizens and businesses, especially by exchanging and sharing innovation; **considers therefore that developing the digital economy is indeed an effective tool but must not be regarded as a new way of achieving any further EU political integration**;

**Paragraph 10**

*Motion for a resolution*

10. ***Is concerned about*** the different national approaches taken ***so far*** by ***the*** Member States ***on regulating the internet and the sharing economy; urges the Commission to take*** initiatives, in line with ***EU competences***, to support innovation and fair competition, ***remove barriers to*** digital trade, and preserve economic and social cohesion and the integrity of ***the single*** market: calls ***on the Commission also to*** preserve the internet as an open, neutral, secured, ***inclusive, global*** platform for communication, production, participation, creation, cultural diversity and innovation, in the interest of citizens, consumers and the success of European companies globally;

*Amendment*

10. ***Welcomes*** the different national approaches taken by Member States, ***and considers them to be an expression of their strategic needs; supports any*** initiatives, in line with ***the subsidiarity principle***, to support innovation and fair competition, ***foster*** digital trade, and preserve economic and social cohesion and the integrity of ***each Member State's*** market; calls ***for*** the internet ***to be preserved*** as an open, neutral, secured, ***international*** platform for communication, production, participation, creation, cultural diversity and innovation, in the interest of citizens, consumers and the success of European companies globally;

**Motion for a resolution**

**Paragraph 26**

*Motion for a resolution*

26. **Highlights** the fact that *while* parcel delivery services work well for consumers in some Member States, inefficient delivery services, especially as regards the final mile delivery, **are one of the main barriers** to cross-border e-commerce **in some Member States and one of the most reported reasons for withdrawing from online transactions for both consumers and businesses**; believes that *the* inadequacies of cross-border parcel delivery can be solved **only** from a **European single** market perspective, and underlines the importance of **competition in this sector as well the need for the** parcel industry **to adapt** to modern living patterns and offer flexible delivery options, such as networks of collection points , parcel points and price comparators;

*Amendment*

26. **Insists on** the fact that parcel delivery services work well for consumers in some Member States; **notes that the possibly** inefficient delivery services **in some others**, especially as regards the final mile delivery, **could be one barrier** to cross-border e-commerce **development**; believes that **certain** inadequacies of cross-border parcel delivery can be solved from a market **negotiation** perspective **between the two Member States concerned**, and underlines the importance of the parcel industry **adapting** to modern living patterns and **offering** flexible delivery options, such as networks of collection points, parcel points and price comparators;

**Paragraph 113**

*Motion for a resolution*

113. Notes that the internet and ICT have ***an enormous*** impact ***on the emancipation of women and girls***; acknowledges that female participation in the EU digital sector has ***a positive*** impact on European GDP; recognises the significant potential of ***female*** innovators and entrepreneurs and the role they can play in digital transformation; ***underlines the need to overcome gender stereotypes, and*** fully supports and encourages a digital entrepreneurial culture for ***women, as well as their integration and participation in information society***;

*Amendment*

113. Notes that ***women and girls have not waited for*** the internet and ICT ***in order to be emancipated, but that these technologies have a positive*** impact ***for them as they do for everyone else***; acknowledges that female ***and male*** participation in the EU digital sector has ***an significant*** impact on European GDP; recognises the significant potential of ***society's*** innovators and entrepreneurs and the role they can play in digital transformation; fully supports and encourages a digital entrepreneurial culture for ***everyone***;

**Motion for a resolution**

**Paragraph 118**

*Motion for a resolution*

118. Notes that public and private investment, and new funding opportunities in vocational education and lifelong learning, is necessary to ensure that workers, especially less qualified workers, are equipped with the right skills for the digital economy; calls on the **Commission and** Member States, together with private industry, to develop easily accessible, standardised and certified **on-line** training courses and innovative and accessible e-skills training programmes in order to teach participants a minimum of digital skills; encourages Member States to make these **on-line** courses an integral part of the Youth Guarantee; **encourages the Commission and the Member States to create the basis for mutual recognition of digital skills and qualifications by establishing a European certificate or grading system, following the example of the European common framework of reference for language learning and teaching; stresses that cultural diversity in Europe, as well as multilingualism, benefits from cross-border access to content;**

*Amendment*

118. Notes that public and private investment, and new funding opportunities in vocational education and lifelong learning, is necessary to ensure that workers, especially less qualified workers, are equipped with the right skills for the digital economy; calls on the Member States, together with private industry, to develop easily accessible, standardised and certified **online** training courses and innovative and accessible e-skills training programmes in order to teach participants a minimum of digital skills; encourages Member States to make these **online** courses an integral part of the Youth Guarantee;

#### **Paragraph 125**

#### *Motion for a resolution*

125. ***Calls on the Commission and Member States to renew their commitment to the EU 2020 strategy's research and innovation targets as building blocks of a competitive Digital Single Market,*** economic growth and job creation, with a ***comprehensive*** approach to ***Open Science, Open*** innovation, ***Open*** data and ***knowledge transfer***; considers that this should include ***a revised legal framework for text and data mining for scientific research purposes, the increased use of free and open source software, particularly in educational establishments and public administrations,*** and easier access for SMEs and start-ups to ***Horizon 2020*** funding adapted to the short innovation cycles of the ICT sector; stresses in this respect the importance of all relevant initiatives, from public-private partnerships and innovation clusters to European technology and science parks, notably in less industrialised European regions, and accelerator programmes for start-ups and joint technology platforms, as well as the ability to obtain licences for standard-essential patents, within the restraints of EU competition law, under FRAND licensing terms, in order to preserve R&D and standardisation incentives and foster innovation;

#### *Amendment*

**Paragraph 127**

*Motion for a resolution*

127. ***Stresses the importance of a fully independent internet governance structure to maintain the internet as a transparent and inclusive model of multi-stakeholder governance, based on the principle of the internet as a unique, open, free and stable platform; considers it essential to use the delay in the transition of stewardship of ICANN to serve this purpose; strongly believes that the global dimension of the internet needs to be taken into account in all relevant EU policies and calls on the EEAS to make full use of the opportunities offered by digitalisation in the development of a coherent external policy, to ensure that the EU is represented in internet governance platforms and to be more vocal in global fora, in particular on standard-setting, data flows, the preparations for 5G deployment and cybersecurity;***

*Amendment*

127. ***Rejects any*** internet governance structure; considers it essential, ***nevertheless***, to ensure that ***EU Member States are*** represented in internet governance platforms, in particular on standard-setting, data flows ***and*** the preparations for 5G deployment and cybersecurity;
