Proposal for a decision

Recital 1 a (new)

Text proposed by the Commission

Amendment

(1a) In accordance with EU strategies on Bioeconomy, Circular Economy and Climate and Energy, and more specifically the Union's commitments regarding the reduction of GHG emissions, research should also focus on the development of innovative (bio)technologies to capture CO/CO₂, CH₄ and other GHG from coal and steel production, to be used as feedstock for the production of bio-based fuels, chemicals and materials;
