Amendment

(1) The Union's ambitious External Investment Plan (EIP) aims to support investments starting in Africa and the Union's Neighbourhood as a means to
promote the sustainable development goals of the United Nations 2030 Agenda for Sustainable Development (‘the 2030 Agenda’) as well as the commitments under the recently revised European Neighbourhood Policy thus addressing root causes of migration. It should also contribute to the implementation of the Paris Agreement on Climate Change (COP 21).

contribute to the achievement of the sustainable development goals of the United Nations 2030 Agenda for Sustainable Development (‘the 2030 Agenda’), in particular the eradication of poverty, as well as the commitments under the recently revised European Neighbourhood Policy. Investing in Africa and the Union’s neighbourhood will contribute towards addressing migratory pressures stemming from poverty, conflict, instability, underdevelopment, inequality, human rights violations, demographic growth, lack of employment and economic opportunities as well as from climate change, in complementarity with the partnership frameworks with third countries. The EIP should also contribute to the implementation of the Paris Agreement on Climate Change (COP 21).

Amendment 2
Proposal for a regulation
Recital 2

Text proposed by the Commission

(2) The EIP should incorporate the Union commitment under the Addis Ababa Action Agenda on Financing for Development. It should also allow European investors and private companies, including small and medium-sized enterprises, to participate more effectively to sustainable development in partner countries.

Amendment

(2) The EIP should incorporate the Union commitment under the Addis Ababa Action Agenda on Financing for Development and the principles of development effectiveness, as well as policy coherence for development as provided for by Article 208 of the Treaty on the Functioning of the European Union (TFEU). It should also allow investors and private companies, in particular micro, small and medium-sized enterprises, to contribute more effectively to sustainable development in partner countries in line with Union development and neighbourhood policies.
Amendment 3
Proposal for a regulation
Recital 2 a (new)

Text proposed by the Commission

(2a) The EFSD should contribute to the implementation of the 2030 Agenda, which recognises international migration as a multi-dimensional reality of major relevance for the development of countries of origin, transit and destination, requiring coherent and comprehensive responses, while underlining the potential for migrants to contribute to inclusive growth and sustainable development.

Amendment 4
Proposal for a regulation
Recital 3

(3) This is in line with the Union Global Strategy for Foreign and Security Policy which embeds challenges such as migration and resilience in the overall EU foreign policy, ensuring coherence and synergies with European development and Neighbourhood policies.

Amendment 5
Proposal for a regulation
Recital 4

(3) This is in line with the Union Global Strategy for Foreign and Security Policy which embeds challenges such as migration and resilience in the overall EU foreign policy, ensuring that Union external policy is fully coherent with the objectives of development policy and ensuring synergies with European development and Neighbourhood policies. This is also in line with the Charter of Fundamental Rights of the European Union and international human rights law, ensuring a human rights-based approach while addressing forced displacement and irregular migration.
(4) The EIP should provide an integrated financial package to finance investments starting in regions of Africa for countries that are signatories to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its member States, of the other part, signed in Cotonou on 23 June 2000\(^{22}\) and the Neighbourhood countries, thereby creating growth and employment opportunities, maximising additionality, delivering innovative products, and crowding-in private sector funds.

---

Amendment

(4) The European Fund for Sustainable Development (EFSD), as part of the EIP, should provide an integrated financial package to finance and attract investments in order to foster sustainable and inclusive economic and social development and promote the socio-economic resilience of partner countries, while maximising additionality, addressing market failures and sub-optimal investment situations, and crowding-in private sector funds. EFSD operations should be clearly distinct from, and complementary to, other support, in particular the European Investment Bank’s (EIB) external lending mandate operations and Economic Resilience Initiative, and the ACP Investment Facility. EFSD operations should also be complementary to the existing activities of other eligible financial institutions and cover blind spots in investment that they are currently not able to meet.

Proposal for a regulation

Recital 4 a (new)

Text proposed by the Commission

(4 a) Involvement of the private sector in the Union's cooperation with partner countries through the EFSD should yield measurable and additional development impact, without distorting the market and should be cost-effective, based on mutual accountability and risk and cost sharing. Such involvement should build on a commitment to internationally agreed guidelines and principles, including the

(4a) In order to fulfil the political commitments of the EU on renewable energy, energy efficiency, and climate change mitigation and adaptation, a minimum share of 35% of the funding under the EFSD should be devoted to financing and investment operations wholly relevant for these sectors thus contributing to the implementation of the Paris Agreement on Climate Change.

(4d) Actions under this Regulation should be designed in such a way so as to fulfil the criteria for Official Development Assistance (ODA) established by the Development Assistance Committee (DAC) of the OECD, taking into account the specificities of private sector development, and to focus ODA on Least-Developed Countries with a view to directing 50 % of the Union’s ODA to Least-Developed Countries in the near future.

Amendment 10

Proposal for a regulation
Recital 4 e (new)

*Text proposed by the Commission*

(4e) Technical assistance to partner countries should constitute the second pillar of the EIP. In this context, the Commission should step up assistance in order to help partner countries attract investment by better preparing and promoting projects, developing a higher number of bankable projects and making them known to the international investor community. A project web-portal, in the form of a publicly accessible and user-friendly database, should be established to provide relevant information for each project.

Amendment 11

Proposal for a regulation
Recital 4 f (new)
(4f) The improvement of the investment climate and overall policy environment in partner countries should constitute the third pillar of the EIP. In the context of the Union's existing political relations with partner countries, the Commission and the High Representative of the Union for Foreign Affairs and Security Policy (High Representative) should maintain policy dialogues aimed at developing legal frameworks, policies and institutions that promote economic stability, sustainable investment and inclusive growth. Those policy dialogues should cover, inter alia, the fight against corruption, organised crime and illicit financial flows, good governance, the inclusion of local markets, the boosting of entrepreneurship as well as local business settings, the respect for human rights and the rule of law as well as gender-responsive policies.

Recital 5 a (new)

Text proposed by the Commission

(5a) In the light of the findings of the Court of Auditors\(^1\)a regarding the use of blending in the external relations of the Union, which highlighted the fact that in the case of almost half of the projects examined there was insufficient evidence to conclude that the grants were justified, and that in a number of those cases there were indications that the investments would have been made without the Union contribution, it is essential that blending only be used where the Commission can clearly demonstrate its added value.

ANNEX

Regions eligible for support through the EFSD Guarantee:

– Africa, encompassing the African countries that are signatories of the Cotonou Partnership Agreement;

EXPLANATORY STATEMENT

On 14 September 2016, the Commission tabled a proposal for establishing a new European Fund for Sustainable Development (EFSD) aimed at mobilising up to EUR 44 billion of investments starting in Africa and the EU’s Eastern and Southern Neighbourhood, with initial funds from the Union budget and from the European Development Fund (EDF). This initiative, inspired by the Investment Plan for Europe launched in 2015, aims at bringing under a single EFSD umbrella two elements:

- A new 1.5 billion EFSD Guarantee Fund, provisioned at a 50% ratio by the Union budget (EUR 350 million) and the EDF (EUR 400 million);

- The existing blending facilities for Africa and for the Neighbourhood (i.e. where grants from the Union blend with loans or other products from financial institutions), estimated at a level of EUR 2.6 billion.

The EFSD would be composed of regional investment platforms combining financing from the EFSD Guarantee and from the blending facilities. It would be managed by the Commission and implemented in partnership with financial institutions such as the EIB, the EBRD, international, regional and national development banks.

The EFSD is the first pillar of the External Investment Plan (EIP), under which the Commission also plans to enhance technical assistance in partner countries (pillar 2) and to work towards improving the investment climate and overall policy environment in those countries (pillar 3). The EIP is at the crossroads of several initiatives/policies:

- The 2030 Sustainable Development Goals, the Addis Ababa Action Agenda and the Paris agreement on climate change approved in the second half of 2015;

- The EU Global Strategy for Foreign and Security Policy presented in June 2016 and the revision of the European Consensus on Development in 2017;

- The existing European Development and Neighbourhood policies;

- The Partnership Framework with third countries under the European Agenda for Migration, also launched in June 2016.

The main assumption is that supporting investments and private sector involvement through innovative financing can boost jobs, growth and stability in the developing countries, thus addressing the root causes of migration. As part of the External Investment Plan, the Commission also proposed to extend the EIB’s External Lending Mandate.

The Rapporteurs largely welcome the Commission’s proposal and invite the committees on Foreign Affairs, on Development and on Budgets to use the opportunity of this legislative procedure to improve the design and objectives of the EFSD in order to make it a success.

They suggest, in particular, working on the following issues:

- Objectives of the EFSD in relation to the established principles of EU’s development and
external policies and to the current migration challenge;

- The governance and management structure of the EFSD, notably the respective mandates of the Strategic Board and of the Operational Boards and the role of the European Commission;

- The definition of investment windows and indicators;

- The consistency with the other pillars of the EIP, with other Union instruments and initiatives, and with the EIB’s external activities;

- The additionality of EFSD financing and investment operations, involving a higher risk;

- Additional development impact, in particular for less developed countries;

- Provisions on accountability, reporting and transparency, and tax matters;

- The procedure for defining the geographical scope of the EFSD;

- The role of the European Parliament.

(2) The EIP should incorporate the Union commitment under the Addis Ababa Action Agenda on Financing for Development. It should also allow European investors and private companies, including small and medium-sized enterprises, to participate more effectively to sustainable development in partner countries.

*Amendment*

(2) The EIP should incorporate the Union commitment under the Addis Ababa Action Agenda on Financing for Development. It should also allow European investors and private companies, in particular small and medium-sized enterprises, to contribute more effectively to sustainable development in partner countries, with the emphasis very much on 'sustainable'.

(4) The EIP should provide an integrated financial package to finance investments starting in regions of Africa for countries that are signatories to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its member States, of the other part, signed in Cotonou on 23 June 2000 and the Neighbourhood countries, thereby creating growth and employment opportunities, maximising additionality, delivering innovative products, and crowding-in private sector funds.

*Amendment*

(4) The EIP should provide an integrated financial package to finance investments starting in regions of Africa for countries that are signatories to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its member States, of the other part, signed in Cotonou on 23 June 2000 (the ACP-EC Partnership Agreement) and the Neighbourhood countries. This should provide additional growth and employment opportunities, maximise additionality and help deliver innovative products, by encouraging the use of additional private-sector funds, promoting sustainable development and a circular economy. A balanced geographical approach should
be ensured so that all signatories to the ACP-EC Partnership Agreement and all Neighbourhood countries have a fair chance to access funding under the EIP.

Proposal for a regulation
Recital 4 a (new)

Text proposed by the Commission

(4a) In the light of the findings of the European Court of Auditors\(^1a\) regarding the use of blending in the external relations of the Union, which highlighted the fact that for nearly half of the projects examined there was insufficient evidence to conclude that the grants were justified, and that for a number of those cases there were indications that the investments would have been made without the Union contribution, it is paramount that blending should only be used where the Commission can clearly demonstrate its added value.

Amendment

(6) Furthermore, the EFSD should operate as a ‘one-stop-shop’, receiving financing proposals from financial institutions and public or private investors,
provide guidance and all the necessary information for investors wishing to invest in development activities and delivering a wide range of financial support to eligible investments. The EFSD should deploy innovative instruments to support investments in sustainable development in partner countries and involve the private sector.

Recital 8 a (new)

Text proposed by the Commission
(8a) The EFSD Guarantee should not be used to fund major infrastructure projects which have a low impact on job
creation and whose cost-benefit ratio renders the investment unsustainable. The EFSD Guarantee should only fund projects whose implementation is not controversial from the environmental, financial and social points of view on the basis of an independent in-depth ex ante assessment and an adequate cost-benefit analysis.
