Gérard Deprez, Janusz Lewandowski
Reform of the European Union's system of own resources
2017/2053(INI)

A8-0041/2018

Motion for a resolution

Paragraph 37

Motion for a resolution

37. Calls on the Commission, pending the adoption of the relevant VAT legislation, to present a proposal for a reformed own resource based on VAT as part of its upcoming legislative package on EU own resources; ***believes that such a proposal should take account of the main outcomes of the VAT reform currently under discussion;***

Amendment

37. Calls on the Commission, pending the adoption of the relevant VAT legislation, to present a proposal for a reformed own resource ***that is not*** based on VAT as part of its upcoming legislative package on EU own resources;

Paragraph 40

Motion for a resolution

Amendment

40. ***Agrees*** with the HLGOR's assessment of the CCCTB as a basis for a new own resource, ***meeting all the criteria set by the Group; underlines that the CCCTB is also a key element in the development of the single market, which is a European public good, as it prevents both inappropriate tax competition between Member States and fiscal optimisation damaging to the level playing field;***

40. ***Disagrees*** with the HLGOR's assessment of the CCCTB as a basis for a new own resource;

Motion for a resolution

Paragraph 42

Motion for a resolution

Amendment

42. Asks the Commission, drawing on the conclusions of the review of the CCCTB Directive, to propose the creation of a new own resource for the Union budget, to be calculated on the basis of Member States' revenue generated from the CCCTB; is in favour of setting a uniform levy rate on the revenue from the CCCTB, to be collected as an own resource; believes that such a system could provide significant and stable receipts for the EU at limited administrative cost;

Paragraph 43

Motion for a resolution

Amendment

43. *Is of the opinion that income stemming for the European Central Bank profits (ECB revenue made from issuing currency), and thus having a direct link to the EU monetary union, should form the basis of a new own resource instead of being paid out to national treasuries;*

Motion for a resolution

Paragraph 50

Motion for a resolution

Amendment

50. *Calls, in principle, for the creation of a new own resource for the Union budget to be levied on transactions in the digital economy; considers, however, that in view of the important ongoing negotiations at both EU and OECD level, it is too early to decide on the exact arrangements for the establishment of such a resource;*

Paragraph 51

Motion for a resolution

Amendment

51. Believes, nevertheless, that any arrangements made by the EU authorities, such as registration or monitoring systems or regulatory mechanisms, should immediately permit the collection of duties or levies for the benefit of the Union budget on the basis of their European added value; considers that these are EU public goods which, as the HLGOR states, provide a basis for establishing a levy that constitutes 'other revenue' deriving from Union policies;

Reform of the European Union's system of own resources
2017/2053(INI)

Motion for a resolution

Paragraph 54

Motion for a resolution

Amendment

54. Stresses the importance of green taxation as a particularly suitable mechanism for contributing to European own resources; calls on the Commission to further incorporate the proposals for additional ecological own resources, as outlined in the HLGOR Report and by the Commissioner for the EU budget, which are in line with certain Union policies such as those on energy (energy tax), environment and climate (carbon border adjustment mechanism, plastic tax and the Emissions Trading Scheme (ETS)) and transport (road fuel and air ticket taxes), in order to promote additional future Union own resources;

A8-0041/2018

Motion for a resolution
Paragraph 55

Motion for a resolution

Amendment

55. *Calls for an important share of ETS auctioning revenues from Phase 4 (2021) onwards to be considered as a new EU own resource; recalls that this option has been discussed in the HLGOR, and is explicitly suggested by the Commission in its communication of 14 February 2018 entitled 'A new, modern MFF for a European Union that delivers its priorities post-2020' (COM(2018)0098); calls, in parallel, for the introduction of a carbon border adjustment mechanism, as a new own resource for the EU budget, which should also have the effect of ensuring a level playing field in international trade and reducing the offshoring of production, while internalising the costs of climate change into the prices of imported goods;*
