Paragraph 2 a (new)

Motion for a resolution

Amendment

2a. Takes note of the work of the High Level Group on Own Resources, while expressing particular concern at proposals for measures aimed at reducing the share of the GNI-based contribution, as it considers that the Community budget should be made up of Member States' contributions based on their GNI, so as to preserve and strengthen the principle of contributory solidarity; argues that no EU system of own resources should undermine or replace this principle, which it considers to be the most transparent, fair and simple;
