Gérard Deprez, Janusz Lewandowski

Reform of the European Union's system of own resources
2017/2053(INI)

Motion for a resolution**Paragraph 48 a (new)**

Motion for a resolution

Amendment

48a. Calls for better regulation of the digital economy sector (e.g. Facebook, Google, Apple, Microsoft, Amazon); urges a review of corporate tax, on the basis of making it compulsory for digital companies to pay tax in the country where they provide their services, and, at the same time, the implementation of a system which enables control of the customer payment scheme in the country where the service is used; adds that, in view of the global nature of the virtual economy, the coordination of fiscal policy between Member States could be considered;

A8-0041/2018

Motion for a resolution

Paragraph 54

Motion for a resolution

54. Stresses the importance of green taxation as a particularly suitable mechanism for contributing to European own resources; calls on the Commission to further incorporate the proposals for additional ecological own resources, *as outlined in the HLGOR Report and by the Commissioner for the EU budget*, which are in line with certain Union policies such as those on energy (energy tax), environment and climate (carbon border adjustment mechanism, plastic tax *and the Emissions Trading Scheme (ETS)*) and transport (*road fuel and* air ticket taxes), in order to promote additional future Union own resources;

Amendment

54. Stresses the importance of green taxation as a particularly suitable mechanism for contributing to European own resources; calls on the Commission to further incorporate the proposals for additional ecological own resources which are in line with certain Union policies such as those on energy (energy tax), environment and climate (carbon border adjustment mechanism, plastic tax) and transport (air ticket taxes), in order to promote additional future Union own resources;

Reform of the European Union's system of own resources
2017/2053(INI)

Motion for a resolution**Paragraph 55***Motion for a resolution**Amendment*

55. Calls for *an important share of ETS auctioning revenues from Phase 4 (2021) onwards to be considered as a new EU own resource; recalls that this option has been discussed in the HLGOR, and is explicitly suggested by the Commission in its communication of 14 February 2018 entitled 'A new, modern MFF for a European Union that delivers its priorities post-2020' (COM(2018)0098); calls, in parallel, for the introduction of a carbon border adjustment mechanism, as a new own resource for the EU budget, which should also have the effect of ensuring a level playing field in international trade and reducing the offshoring of production, while internalising the costs of climate change into the prices of imported goods;*

55. Calls for *the abolition of the ETS system and for the creation of an ambitious European carbon emission and greenhouse gas reduction policy with mandatory convergence criteria;*

Motion for a resolution

Paragraph 56 a (new)

Motion for a resolution

Amendment

56a. Calls on the Commission to introduce a carbon levy on the transport of goods, based on the distance travelled by imported products, in order to promote local production closer to the consumers while reducing the environmental impact of the transport of goods, notably road transport;
