*Motion for a resolution*

**2. *Adopts, in parallel, a separate resolution to set out its position on the reform of the EU's own-resources system in line with the recommendations of the High Level Group on Own Resources; calls on the Commission to take due account of Parliament's position in preparing the legislative proposals on the EU's own resources, which should be ambitious in scope and presented together with the MFF proposals; stresses that both the expenditure and the revenue side of the next MFF will be treated as a single package in the upcoming negotiations, and that no agreement will be reached on the MFF without corresponding headway being made on own resources;***

4. Is convinced that the next MFF should build on the Union's well-established policies and priorities, which aim at promoting peace, democracy, the rule of law, human rights and gender equality, boosting welfare, long-term and sustainable economic growth and research and innovation, providing quality employment leading to decent jobs, fighting climate change, and fostering economic, social and territorial cohesion, as well as solidarity between Member States and citizens; considers that ***these pillars are prerequisites for a properly functioning*** single market and Economic and Monetary Union ***as well as for reinforcing Europe's*** position in the world; trusts that ***they are more relevant than ever for Europe's future endeavours***;

5. Believes that the next MFF should enable the Union to provide solutions and emerge strengthened from the crises of the decade: the economic and financial downturn, youth unemployment, persistent poverty and social exclusion, the phenomenon of migration and refugees, climate change and natural disasters, environmental degradation and biodiversity loss, terrorism and instability, to name but a few; underlines that these ***global, cross-border*** challenges ***with domestic implications reveal the interdependency of our economies and societies, and point to the need for joint actions***;

*Motion for a resolution*

*Amendment*

7. Stresses that the next MFF *provides an opportunity for the Union to demonstrate that it stands together and is able to address political developments such as Brexit, the rise of populist and nationalist movements and changes in global leadership; underlines that divisions and self-centredness are not an answer to global issues and to citizens’ concerns; considers that the Brexit negotiations, in particular, show that the benefits of being a Union member greatly outweigh the cost of contributing to its budget; asks in this context for the full observance of the framework of the commitments previously assumed, as in the case of the Good Friday Agreement in respect of rule of law and democracy;*

7. Stresses that the next MFF *must take into account the fact the citizens in the Member States generally want less EU: Brexit and the 2016 referendum in the Netherlands are examples of deep scepticism towards the EU;*

### Motion for a resolution

#### Paragraph 8

#### *Motion for a resolution*

8. Calls, therefore, for *continuous support for existing policies, in particular the long-standing EU policies enshrined in the Treaties, namely the common agricultural and fisheries policies, and cohesion policy, since they bring tangible benefits of the European project to EU citizens; rejects any attempt to renationalise these policies, as this would neither reduce the financial burden on taxpayers and consumers, nor achieve better results, but would instead hamper growth, solidarity and the functioning of the single market while further deepening inequalities and widening the disparities between territories and economic sectors; intends to secure the same level of funding for the EU-27 for these policies in the next programming period while further improving their effectiveness and simplifying the procedures associated with them;*

#### *Amendment*

8. Calls, therefore, for *a deep rethink of EU policies: the main goal of this MFF should be to provide a framework to wind down the EU budget's scope and volume; stresses that one way to achieve that goal would be to start renationalising some policies;*

13. ***Reaffirms*** the principle that additional political priorities ***should be coupled with additional financial means, whether they emerge*** at the time of adoption of a new MFF or in the course of its implementation, ***and underlines that the financing of new needs should not undermine existing policies and programmes; expects, furthermore, that sufficient flexibility provisions will be put in place in order to accommodate unforeseen circumstances that may arise in the course of the MFF;***

13. ***Affirms*** the principle that additional political priorities ***that may arise*** at the time of adoption of a new MFF or in the course of its implementation should ***be financed by cuts to other*** programmes;
