(8) In the area of unemployment benefits, the rules on the aggregation of periods of insurance should be applied uniformly by all Member States. With the exception of cross-border workers referred to in Article 65(2), the rules on the aggregation of periods for the purpose of conferring entitlement to unemployment benefits should be subject to the condition that an insured person has most recently completed at least **three months** of insurance in that Member State. The previously competent Member State should become competent for all insured persons who do not satisfy this condition. In this case, registration with the employment services of the Member State of most recent insurance should have the same effect as registration with the employment services of the Member State, where the unemployed person had been previously insured.

Amendment
