¹ OJ C 367, 10.10.2018, p. 50.

- (1) Divergent regulatory and supervisory approaches concerning the cross-border distribution of alternative investment funds (AIFs), as defined in *point (a) of Article 4(1) of Directive 2011/61/EU of the European Parliament and of the Council¹, including European Venture Capital Funds (EuVECA), as defined in Regulation (EU) No 345/2013, European Social Entrepreneurship Funds (EuSEF), as defined in Regulation (EU) No 346/2013 and European Long-Term Investment Funds (ELTIF), as defined in Regulation (EU) No 2015/760* and undertakings for collective investment in transferable securities (UCITS), within the meaning of Directive 2009/65/EC of the European Parliament and of the Council², result in fragmentation and barriers to cross-border marketing and access of AIFs and UCITS, which in turn could prevent them from being marketed in other Member States.
- (2) In order to enhance the regulatory framework applicable to *collective investment undertakings* and to better protect investors, marketing communications to investors in AIFs and UCITS should be identifiable as such, and should present *a detailed account of risks and rewards of purchasing units or shares of an AIF or UCITS in an equally prominent manner*. In addition, all information included in marketing communications should be presented in a manner that is fair, clear and not misleading. To safeguard investors' protection and secure a level playing field between AIFs and UCITS, the standards for marketing communications should therefore equally apply to marketing communications for AIFs and UCITS.
- (2 a) *In order to increase transparency and investor protection and to facilitate access to information on national laws, regulations and administrative provisions applicable to marketing communications, national competent authorities should publish such information on their websites in at least a language customary in the sphere of international finance, including their non-official summaries which would allow managers of collective investment undertakings to get a first indication of those requirements. The publication should only be for information purposes and should not create legal obligations. For the same reasons, the European Supervisory Authority (European Securities and Markets Authority) (ESMA) should create a central database containing hyperlinks to the information published on the websites of competent authorities.*
- (2 b) *In order to promote good practices of investor protection which are enshrined in the national requirements for fair and clear marketing communications, including their on-line aspects, it should be possible for ESMA to adopt draft regulatory technical standards on the application of those rules to marketing communications.*
- (3) Competent authorities *may* decide to require *prior* notification of marketing communications *for the purpose of ex-ante verification of* compliance of those communications with this Regulation and other applicable requirements, *such as* whether the marketing communications are identifiable as such, whether they present

² Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) (OJ L 302, 17.11.2009, p. 32).

a detailed account of risks and rewards of purchasing units or shares of a UCITS and, where a Member State allows marketing of AIFs to retail investors, of an AIF in an equally prominent manner and whether all information in marketing communications is presented in a manner that is fair, clear and not misleading. That verification should be performed within a limited timeframe. Where competent authorities require prior notification, this should not prevent them from verifying marketing communications ex-post.

- (4) █
- (5) To ensure equality in treatment and facilitate decision-making of AIFMs and UCITS management companies whether to engage in cross border distribution of investment funds, it is important that fees and charges levied by competent authorities for █ supervision *of cross-border marketing activities* referred to in Directives 2009/65/EC and 2011/61/EU are proportionate to the supervisory tasks carried out and publicly disclosed, and that *in order to enhance transparency* those fees and charges are published on their websites. For the same reason, *hyperlinks to the information published on the websites of competent authorities in relation to the fees and charges should be published at the ESMA website in order to have a central point for information. The ESMA website should also include an interactive tool enabling indicative calculations of those fees and charges levied by competent authorities.*
- (5 a) *To ensure better recovery of fees or charges and to increase transparency and clarity of the fees and charges structure, where such fees or charges are levied by the competent authorities, AIFMs and UCITS management companies should receive an invoice, an individual payment statement or a payment instruction clearly setting out the amount of fees or charges due and the arrangements for payment.*
- (6) Since ESMA, in accordance with Regulation (EU) No 1095/2010 of the European Parliament and of the Council¹, should monitor and assess market developments in the area of its competence, it is appropriate and necessary to enhance the knowledge of ESMA by enlarging ESMA's currently existing databases to include all AIFMs and UCITS management, *the Member States in which they are providing services* and all AIFs and UCITS which those *AIFMs and UCITS* management companies manage and market, as well as all the Member States in which those *collective investment undertakings* are marketed. For that purpose, *in order to enable ESMA to maintain the central database with up-to-date information*, competent authorities should transmit to ESMA *information on the notifications, notification letters and information* that they *have* received under Directives 2009/65/EC and 2011/61/EU *in relation to cross border activity as well as information about any change which should be reflected in the database. All transfers of documents in relation to notifications between competent authorities should take place through a notification portal to be established by ESMA.*

- (7) In order to secure a level playing field between qualifying venture capital funds as defined in Article 3(b) of Regulation (EU) No 345/2013 of the European Parliament and of the Council¹, or qualifying social entrepreneurship funds as defined in Article 3(b) of Regulation (EU) No 346/2013 of the European Parliament and of the Council,² on the one hand, and other AIFs, on the other hand, it is necessary to include into those Regulations rules on pre-marketing that are identical to the rules laid down in Directive 2011/61/EU on pre-marketing. Those rules should enable managers registered in accordance with those Regulations to target investors by testing their appetite for upcoming investment opportunities or strategies through qualifying venture capital funds and qualifying social entrepreneurship funds.
- (8) The Commission should be empowered to adopt draft regulatory technical standards, developed by ESMA, with regard to the specification of information on **marketing communications**, fees or charges or, where applicable, relevant calculation methodologies for those fees or charges, levied by the competent authorities. Furthermore, the Commission should be empowered to adopt draft regulatory technical standards, developed by ESMA, with regard to the specification of information to be notified in notifications, notification letters and written notices on cross-border activities that are required by Directives 2009/65/EC and 2011/61/EU. The Commission should adopt those draft regulatory technical standards by means of delegated acts pursuant to Article 290 TFEU and in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.
- (9) The Commission should be empowered to adopt implementing technical standards, developed by ESMA, with regard to the standard forms, templates and procedures for **publication** by competent authorities of the laws, regulations and administrative provisions and their summaries on marketing requirements applicable in their territories, the levels of fees or charges **for cross-border marketing activity** levied by them, and, where applicable, relevant calculation methodologies. Furthermore, to improve the transmission **to** ESMA, implementing technical standards should **also** cover notifications, notification letters and **information** on cross-border activities that are required by Directives 2009/65/EC and 2011/61/EU. The Commission should adopt those implementing technical standards by means of implementing acts pursuant to Article 291 TFEU and in accordance with Article 15 of Regulation (EU) No 1095/2010.
- (10) It is necessary to **specify the information to be communicated every quarter to ESMA, in order to keep the databases of all managers and collective investment undertakings up-to-date.**
- (11) Any processing of personal data carried out within the framework of this Regulation, such as the exchange or transmission of personal data by the competent authorities, should be undertaken in accordance with Regulation (EU) 2016/679 of the European

⁵ Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC (OJ L 168, 30.6.2017, p. 12).

⁵ Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC (OJ L 168, 30.6.2017, p. 12).

Parliament and of the Council¹, and any exchange or transmission of information by ESMA should be undertaken in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council².

- (11 a) *In order to enable the national competent authorities to exercise the functions attributed to them in this Regulation, Member States should vest them with sufficient resources and all the necessary supervisory and investigative powers.*
- (12) Five years after the entry into force of this Regulation, the Commission should conduct an evaluation of the application of this Regulation. The evaluation should take account of market developments and assess whether the measures introduced have improved the cross-border distribution of investment funds.
- (12 a) *In order to assess the phenomenon of reverse solicitation and demand on the own initiative of an investor, as well as the potential to use them to circumvent provisions connected to the passport, including by third country entities, the Commission should publish a report on these issues two years after the entry into force of this Regulation.*
- (13) In order to ensure legal certainty, it is necessary to synchronise the application dates of laws, regulations and administrative provisions implementing [*Directive amending Directive 2009/65/EC and Directive 2011/61/EU with regard to cross-border distribution of collective investment funds*] and of this Regulation with regard to provisions on marketing communications and pre-marketing.
- (14) Since the objectives of this Regulation, namely to enhance market efficiency while establishing the Capital Markets Union, cannot be sufficiently achieved by the Member States but can rather, by reason of its effects, be better achieved at Union level, the Union may adopt measures in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives,

HAVE ADOPTED THIS REGULATION:
