Report**A8-0475/2018****Norbert Lins, Bart Staes**

Union's authorisation procedure for pesticides
(2018/2153(INI))

Motion for a resolution**Recital B***Motion for a resolution*

B. whereas the EU authorisation procedure for plant protection products is one of the most stringent in the world; whereas in the light of the concerns raised by several stakeholders about the assessment of glyphosate, the Special Committee on the Union's authorisation procedure for pesticides (PEST) aims to identify areas that can be further improved with regard to the Union authorisation procedure for plant protection products, by providing recommendations that it considers to be necessary in order to ensure the achievement of a high level of protection of both human and animal health and the environment;

Amendment

B. whereas ***although*** the EU authorisation procedure for plant protection products is ***considered to be*** one of the most stringent in the world, ***the circumstances surrounding the renewal of approval of glyphosate showed that there are very serious flaws in the Regulation and its implementation***; whereas in the light of the concerns raised by several stakeholders about the assessment of glyphosate, the Special Committee on the Union's authorisation procedure for pesticides (PEST) aims to identify areas that can be further improved with regard to the Union authorisation procedure for plant protection products, by providing recommendations that it considers to be necessary in order to ensure the achievement of a high level of protection of both human and animal health and the environment;
