(20) Mechanisms to ensure a link between Union funding policies and the economic governance of the Union should be further refined, allowing the Commission to make a proposal to the Council to suspend all or part of the commitments for one or more of the programmes of the Member State concerned where that Member State fails to take effective action in the context of the economic governance process. In order to ensure uniform implementation and in view of the importance of the financial effects of measures being imposed, implementing powers should be conferred on the Council which should act on the basis of a Commission proposal. To facilitate the adoption of decisions which are required to ensure effective action in the context of the economic governance process, reversed qualified majority voting should be used.
