Paragraph 32

Motion for a resolution

32. Notes the potential of using intelligent technology and precision farming as means to better administer PPPs, for instance by means of drone or GPS precision technology; stresses, moreover, that the uptake of such solutions could be improved in Member States if better incorporated into training courses and certification schemes for pesticides users in the NAPs;

Amendment

32. Notes the potential of using intelligent technology and precision farming as means to better administer PPPs and to prevent the dispersion thereof in areas where they are not needed, for instance by means of drone or GPS precision technology; stresses, moreover, that the uptake of such solutions could be improved in Member States if better incorporated into training courses and certification schemes for pesticides users in the NAPs;
