Recital 7

Text proposed by the Commission

(7) The Fund should support the efficient management of migration flows, inter alia by promoting common measures in the area of asylum, including Member States’ efforts in receiving persons in need of international protection through resettlement and the transfer of applicants for or beneficiaries of international protection between Member States, supporting integration strategies and a more effective legal migration policy, so as to ensure the Union’s long-term competitiveness and the future of its social model and reduce incentives for irregular migration through a sustainable return and readmission policy. The Fund should support the strengthening of cooperation with third countries to reinforce management of flows of persons applying for asylum or other forms of international
protection, avenues on legal migration and to counter irregular migration and ensure sustainability of return and effective readmission to third countries. As an instrument of internal Union policy and the only funding instrument for asylum and migration at Union level, the Fund should primarily support actions on asylum and migration within the Union. However, within defined limits and subject to the appropriate safeguards, the Fund should support the strengthening of cooperation with third countries to reinforce management of flows of persons applying for asylum or other forms of international protection, to establish avenues on legal migration and to counter irregular migration and networks of smugglers and traffickers in human beings and ensure the sustainability of safe and dignified return to as well as reintegration in third countries.

Amendment 13
Proposal for a regulation
Recital 8

Text proposed by the Commission

(8) The migration crisis highlighted the need to reform the Common European Asylum System to ensure that efficient asylum procedures to prevent secondary movements, to provide uniform and appropriate reception conditions for applicants for international protection, uniform standards for the granting of international protection and appropriate rights and benefits for beneficiaries of international protection. At the same time, the reform was needed to put in place a fairer and more effective system of determining Member States’ responsibility for applicants for international protection as well as a Union framework for Member States’ resettlement efforts. Therefore, it is appropriate for the Fund to provide increased support to Member States’ efforts to fully and properly implement the reformed Common European Asylum readmission policy. As an instrument of internal Union policy and the only funding instrument for asylum and migration at Union level, the Fund should primarily support actions on asylum and migration within the Union. However, within defined limits and subject to the appropriate safeguards, the Fund should support the strengthening of cooperation with third countries to reinforce management of flows of persons applying for asylum or other forms of international protection, to establish avenues on legal migration and to counter irregular migration and networks of smugglers and traffickers in human beings and ensure the sustainability of safe and dignified return to as well as reintegration in third countries.

Amendment

(8) The migration crisis and the rising number of deaths in the Mediterranean over the past years highlighted the need to reform the Common European Asylum System and to put in place a fairer and more effective system of determining Member States’ responsibility for applicants for international protection as well as a framework for Member States’ resettlement and humanitarian admission efforts with a view to increasing the overall number of available resettlement places globally. At the same time, reform is needed to ensure that efficient and rights based asylum procedures are in place and accessible, and to provide uniform and appropriate reception conditions for applicants for international protection, uniform standards for the granting of international protection and appropriate rights and benefits for beneficiaries of
international protection, as well as effective and efficient return procedures for irregular migrants. Therefore, it is appropriate for the Fund to provide increased support to Member States’ efforts to fully and properly implement the reformed Common European Asylum System.

(9) The Fund should also complement and reinforce the activities undertaken by the European Union Agency for Asylum (EUAA) established by Regulation (EU)… [EUAA Regulation]14 with a view to facilitating and improving the functioning of the common European asylum system, by coordinating and strengthening practical cooperation and information exchange between Member States, promoting Union law and operational standards on asylum in order to ensure a high degree of uniformity based on high protection standards as regards procedures for international protection, reception conditions and the assessment of protection needs across the Union, enabling a sustainable and fair distribution of applications for international protection, facilitate convergence in the assessment of applications for international protection across the Union, support the resettlement efforts of the Member States and provide operational and technical assistance to Member States for the management of their asylum and reception systems, in particular those whose systems are subject to disproportionate pressure.

Amendment

(9) The Fund should also complement and reinforce the activities undertaken by the European Asylum Support Office with a view to facilitating and improving the functioning of the common European asylum system, by strengthening practical cooperation and coordinating information exchange on asylum, in particular on good practices between Member States, promoting Union and international law and contributing through relevant guidance, including operational standards, to a uniform implementation of Union law on asylum based on high protection standards as regards procedures for international protection, reception conditions and the assessment of protection needs across the Union, enabling a sustainable and fair distribution of applications for international protection, facilitate convergence in the assessment of applications for international protection across the Union, supporting the resettlement efforts of the Member States and providing operational and technical assistance to Member States for the management of their asylum and reception systems, in particular those whose systems are subject to disproportionate pressure.

Recital 11

(11) Partnerships and cooperation with third countries are an essential component of Union asylum policy to ensure the adequate management of flows of persons applying for asylum or other forms of international protection. With the aim of replacing the unsafe and
irregular arrivals with legal and safe arrival to the territory of the Member States of third-country nationals or stateless persons in need of international protection, expressing solidarity with countries in regions to which or within which a large number of persons in need of international protection have been displaced by helping to alleviate the pressure on those countries, helping achieve the Union’s migration policy objectives by increasing the Union’s leverage vis-à-vis third countries, and of effectively contributing to global resettlement initiatives by speaking with one voice in international fora and with third countries, the Fund should provide financial incentives to the implementation of the Union Resettlement [and Humanitarian Admission] Framework.

Amendment 18
Proposal for a regulation
Recital 11 a (new)

Text proposed by the Commission

Amendment

(11a) The Fund should support the efforts made by Member States to provide international protection and a durable solution in their territories to refugees and displaced persons identified as eligible for resettlement or under national humanitarian admission schemes, which should take into account UNHCR Projected Global Resettlement Needs. To contribute in an ambitious and effective manner, the Fund should provide targeted assistance in the form of financial incentives for each person admitted or resettled.

Amendment 19
Proposal for a regulation
Recital 12
(12) Considering the high levels of migration flows to the Union in the last years and the importance of ensuring the cohesion of our societies, it is crucial to support Member States’ policies for early integration of legally staying third-country nationals, including in the priority areas identified in the Action Plan on Integration of third-country nationals adopted by the Commission in 2016.

Amendment 20
Proposal for a regulation
Recital 13

Text proposed by the Commission

(13) In order to increase efficiency, achieve the greatest Union added value and to ensure the consistency of the Union’s response to foster the integration of third-country nationals, actions financed under the Fund should be specific and complementary to actions financed under the European Social Fund Plus (ESF+) and the European Regional Development Fund (ERDF). Measures financed under this Fund should support measures tailor-made to the needs of third-country nationals that are generally implemented in the early stage of integration, and horizontal actions supporting Member States’ capacities in the field of integration, whereas interventions for third-country nationals with a longer-term impact should be financed under the ERDF and ESF+.

Amendment

(13)  In order to increase efficiency, achieve the greatest Union added value and to ensure the consistency of the Union’s response to foster the integration of third-country nationals, actions financed under the Fund should be specific and complementary to actions financed under the Union’s structural funds. Measures financed under this Fund should support measures tailor-made to the needs of third-country nationals that are generally implemented in the early stages of integration, and horizontal actions supporting Member States’ capacities in the field of integration, complemented by interventions to promote the social and economic inclusion of third-country nationals financed under the structural funds.

Amendment 21
Proposal for a regulation
Recital 13 a (new)
(13a) The scope of the integration measures should also include beneficiaries of international protection in order to ensure a comprehensive approach to integration, taking into account the specificities of that target group. Where integration measures are combined with reception, actions should, where appropriate, also allow asylum seekers to be included.

Amendment 22

Proposal for a regulation
Recital 14

(14) In this context, the authorities of the Member States responsible for the implementation of the Fund should be required to cooperate and establish coordination mechanisms with the authorities identified by Member States for the purpose of the management of the interventions of the ESF+ and of the ERDF and wherever necessary with their managing authorities and with the managing authorities of other Union funds contributing to the integration of third-country nationals.

Amendment 23

Proposal for a regulation
Recital 16

(14) In this context, the authorities of the Member States responsible for the implementation of the Fund should be required to cooperate and establish coordination mechanisms with the authorities identified by Member States for the purpose of the management of the interventions of the structural funds, and wherever necessary with their managing authorities and with the managing authorities of other Union funds contributing to the integration of third-country nationals. Through these coordination mechanisms, the Commission should assess the coherence and complementarity between the funds, and the extent to which measures implemented through each fund contribute to the integration of third country nationals.
Amendment 24

Proposal for a regulation
Recital 17

Text proposed by the Commission

(16) It is appropriate to allow those Member States that so wish to provide in their programmes that integration actions may include immediate relatives of third-country nationals, to the extent that this is necessary for the effective implementation of such actions. The term ‘immediate relative’ should be understood as meaning spouses, partners and any person having direct family links in descending or ascending line with the third-country national targeted by the integration action, and who would otherwise not be covered by the scope of the Fund.

Amendment

(16) It is appropriate to allow those Member States that so wish to provide in their programmes that integration actions may include immediate relatives of third-country nationals, thus supporting family unity in the best interests of the child, to the extent that this is necessary for the effective implementation of such actions. The term ‘immediate relative’ should be understood as meaning spouses, partners and any person having direct family links in descending or ascending line with the third-country national targeted by the integration action, and who would otherwise not be covered by the scope of the Fund.

Text proposed by the Commission

(17) Considering the crucial role played by local and regional authorities and civil society organisations in the field of integration and to facilitate the access of these entities to funding at Union level, the Fund should facilitate the implementation of actions in the field of integration by local and regional authorities or civil society organisations, including through the use of the thematic facility and through a higher co-financing rate for these actions.

Amendment

(17) Considering the crucial role played by local and regional authorities and their representative associations, as well as by civil society organisations, including refugees and migrants associations in the field of integration, and to facilitate the direct access of these entities to funding at Union level, the Fund should facilitate the implementation of actions in the field of integration by local and regional authorities or civil society organisations, including through a higher co-financing rate for these actions and the use of a dedicated component of the thematic facility where those local and regional authorities have the competence to carry out integration measures.
Amendment 25
Proposal for a regulation
Recital 18

Text proposed by the Commission

(18) Considering the long-term economic and demographic challenges faced by the Union, it is crucial to establish well-functioning legal migration channels to the Union to maintain the Union as an attractive destination for migrants and ensure the sustainability of welfare systems and growth of the Union economy.

Amendment

(18) Considering the long-term economic and demographic challenges faced by the Union and the increasingly globalised nature of migration, it is crucial to establish well-functioning legal migration channels to the Union to maintain the Union as an attractive destination for regular migration, in accordance with Member States’ economic and social needs, and ensure the sustainability of welfare systems and growth of the Union economy, while protecting migrant workers from labour exploitation.

Amendment 26
Proposal for a regulation
Recital 19

Text proposed by the Commission

(19) The Fund should support Member States in setting up strategies organising legal migration, enhancing their capacity to develop, implement, monitor and evaluate in general all immigration and integration strategies, policies and measures for legally staying third-country nationals, including Union legal instruments. The Fund should also support the exchange of information, best practices and cooperation between different departments of administration and levels of governance, and between Member States.

Amendment

(19) The Fund should support Member States in setting up strategies organising and expanding legal migration pathways, enhancing their capacity to develop, implement, monitor and evaluate in general all immigration and integration strategies, policies and measures for legally staying third-country nationals, in particular Union instruments for legal migration. The Fund should also support the exchange of information, best practices and cooperation between different departments of administration and levels of governance, and between Member States.

Amendment 27
Proposal for a regulation
Recital 20

Text proposed by the Commission

(20) An efficient return policy is an integral part of the comprehensive migration approach the Union and its Member States pursue. The Fund should support and encourage efforts by the Member States with a view to the effective implementation and further development of common standards on return, in particular as set out in Directive 2008/115/EC of the European Parliament and of the Council, and of an integrated and coordinated approach to return management. For sustainable return policies, the Fund should equally support related measures in third countries, such as the reintegration of returnees.

Amendment

(20) An efficient and dignified return policy is an integral part of the comprehensive migration approach the Union and its Member States pursue. The Fund should support and encourage efforts by the Member States with a view to the effective implementation and further development of common standards on return, with an emphasis on voluntary returns, in particular as set out in Directive 2008/115/EC of the European Parliament and of the Council, and of an integrated and coordinated approach to return management. The Fund should equally support related measures in third countries to facilitate and guarantee safe and dignified return and readmission as well as sustainable reintegration, as enshrined in the GCM.

Amendment

(21) Member States should give preference to voluntary return and ensure effective, safe and dignified return of irregular migrants. Therefore, the Fund should give preferential support to actions related to voluntary return. In order to promote this, Member States should envisage incentives such as preferential treatment in the form of enhanced return

assistance and long-term reintegration support. This kind of voluntary return is in the interests of both returnees and the authorities in terms of cost-effectiveness. The best interests of the child should be a primary consideration in all actions or decisions concerning children in migration, including returns, taking full account of the right of the child to express his or her views.

Amendment 29

Proposal for a regulation
Recital 22

Text proposed by the Commission

(22) Voluntary and enforced returns are nevertheless interlinked, with mutually reinforcing effect, and Member States should therefore be encouraged to reinforce the complementarities between these two forms of return. The possibility of removals is an important element contributing to the integrity of the asylum and legal migration systems. The Fund should therefore support actions of Member States to facilitate and carry out removals in accordance with the standards laid down in Union law, where applicable, and with full respect for the fundamental rights and dignity of returnees.

Amendment

(22) While voluntary returns should take priority over enforced returns, they are nevertheless interlinked, with mutually reinforcing effect, and Member States should therefore be encouraged to reinforce the complementarities between these two forms of return. The possibility of removals is an important element contributing to the integrity of the asylum and legal migration systems. The Fund should therefore support actions of Member States to facilitate and carry out removals in accordance with the standards laid down in Union law, where applicable, and with full respect for the fundamental rights and dignity of returnees. The Fund should support actions related to return of children only where such return is based on a positive assessment of the best interests of the child.

Text proposed by the Commission

(23) Specific support measures for

Amendment

(23) Specific support measures for
returnees in the Member States and in the countries of return can improve conditions of return and enhance their reintegration. Particular attention should be paid to vulnerable groups. Return decisions should be based on a comprehensive and careful assessment of the situation in the country of origin, including an evaluation of the absorption capacity at the local level. Specific measures and actions supporting countries of origin, and in particular vulnerable people, contribute to ensure the sustainability, safety and effectiveness of returns. These measures should be implemented with the active participation of local authorities, civil society and diasporas.

Amendment 31
Proposal for a regulation
Recital 24

Text proposed by the Commission

(24) Readmission agreements and other arrangements are an integral component of the Union return policy and a central tool for the efficient management of migration flows, as they facilitate the swift return of irregular migrants. Those agreements and arrangements are an important element in the framework of the dialogue and cooperation with third countries of origin and transit of irregular migrants and their implementation in third countries should be supported in the interests of effective return policies at national and Union level.

Amendment

(24) Formal readmission agreements are an integral and crucial component of the Union return policy and a central tool for the efficient management of migration flows, as they facilitate the swift return of irregular migrants. Those agreements are an important element in the framework of the dialogue and cooperation with third countries of origin and transit of irregular migrants and the Fund should support their implementation in third countries in the interests of effective, safe and dignified return policies within defined limits and subject to the appropriate safeguards.

Amendment 32
Proposal for a regulation
Recital 25
(25) In addition to supporting the **return of persons as provided for in this Regulation**, the Fund should also support other measures to counter **irregular migration, address incentives for illegal migration or the circumventing of existing legal migration rules**, thereby safeguarding the integrity of Member States’ immigration systems.

**Amendment**

In addition to supporting the **integration of third country nationals or stateless persons within Member States**, the Fund should also support other measures to counter **trafficking of migrants, to encourage and facilitate the establishment of legal migration rules**, thereby safeguarding the integrity of immigration systems in the countries of origin, in full compliance with the **Principle of Coherence for Sustainable Development**.

**Amendment 33**

Proposal for a regulation

Recital 26

**Text proposed by the Commission**

(26) The employment of irregular migrants **creates a pull factor for illegal migration and undermines the development of a labour mobility policy built on legal migration schemes**. The Fund should therefore support Member States, either directly or indirectly, in their implementation of Directive 2009/52/EC of the European Parliament and of the Council\(^{16}\) which prohibits the employment of illegally staying third-country nationals and provides for sanctions against employers who infringe that prohibition.

**Amendment**

(26) The employment of irregular migrants undermines the development of a labour mobility policy built on legal migration schemes and **endangers the rights of migrant workers, making them vulnerable to rights violations and abuse**. The Fund should therefore support Member States, either directly or indirectly, in their implementation of Directive 2009/52/EC of the European Parliament and of the Council\(^{16}\) which prohibits the employment of illegally staying third-country nationals, **provides for a complaints and wage recuperation mechanism for exploited workers** and provides for sanctions against employers who infringe that prohibition.

Text proposed by the Commission

(27) The Fund should support Member States, either directly or indirectly, in their implementation of Directive 2011/36/EU of the European Parliament and of the Council[17] which sets forth provisions on assistance, support and protection of victims of trafficking in human beings.

Amendment

(27) The Fund should support Member States, either directly or indirectly, in their implementation of Directive 2011/36/EU of the European Parliament and of the Council[17], which sets forth provisions on assistance, support and protection of victims of trafficking in human beings. These measures should take into account the gender-specific nature of trafficking in human beings. When implementing the Fund, Member States should take into consideration that persons who are obliged to leave their habitual homes for reasons of sudden or progressive climate-related change in the environment that adversely affects their lives or living conditions, have a high risk of falling victims to trafficking in human beings.

These requirements, where appropriate, can include measurable indicators, including qualitative and quantitative indicators, as a basis for evaluating the effects of the Fund on the ground. In order to measure the achievements of the Fund, common indicators and related targets should be established in relation to each specific objective of the Fund. Through these common indicators and financial reporting, the Commission and the Member States should monitor the implementation of the Fund. To adequately fulfil its supervisory role, the Commission should be in a position to establish the amounts actually spent from the Fund in a given year. When reporting the annual accounts of their national programme to the Commission, Member States should therefore distinguish between recoveries, pre-financing payments to final beneficiaries and reimbursements of expenditure that was actually incurred. To facilitate the audit and the monitoring of the implementation of the Fund, the Commission should include these amounts in its annual implementation report for the Fund as well as monitoring results and implementation of actions of the Fund at local, regional, national and Union level, including specific projects and partners. The Commission should present a summary of the accepted annual performance reports to the European Parliament and the Council every year. Reports outlining monitoring results and implementation of actions under the Fund at both Member States and Union level should be made publicly available and presented to the European Parliament.

EXPLANATORY STATEMENT

At a time when asylum and migration are so high on the political agenda, it is imperative to restate the EU’s commitment to its asylum and immigration acquis. This is one main reason as to why the Rapporteur welcomes the proposal for an Asylum and Migration Fund which will act as the successor fund to the current Asylum, Migration and Integration Fund and which will continue to provide financial support for the implementation of the asylum and migration acquis.

The high levels of migration towards the EU in 2015 exposed serious flaws in the European Union’s asylum system. To this day, frontline Member States continue to struggle as the principles of solidarity and fair sharing of responsibility are not given practical meaning by the European Union as a whole.

The Rapporteur believes that the European Union, as a whole, should try to utilise this Fund to help address the different challenges facing it on different fronts: from reforming the Common European Asylum system, to making the return policy more sustainable and more effective, to creating legal channels of migration and promoting the integration of refugees, into our societies.

The Rapporteur welcomes the fact that, for the upcoming multi-annual financial period, the European Commission is proposing a budget €10.4 billion to address asylum, migration and integration challenges in Europe. As a point of departure, the Rapporteur believes that, it is only right that each of these policy areas should be reflected in the title of the Fund.

The Rapporteur believes that a Fund dedicated to asylum, migration and integration policies within the European Union should focus on doing exactly that. The necessary support should be given to the Member States in their actions and measures to ease migratory pressures as well as to carry out their legal obligations. In this regard, the Rapporteur believes that introducing minimum percentages should help ensure that all Member State fulfil their obligations towards each of the different objectives of the Fund.

Under the proposed Asylum, Migration and Integration Fund, the Member States should fulfil their obligations to strengthen and develop all aspects of the Common European Asylum System, develop legal migration channels, promote the integration of third-country nationals, ensure effective and sustainable returns and give meaning to the notion of solidarity and fair-sharing of responsibility.

Resettlement and relocation schemes are two mechanisms that can effectively show true solidarity towards both frontline Member States and those persons in need of protection. These mechanisms will function best if all Member States take part and only if they adhere to commitments they have pledged to.

Moreover, the Rapporteur believes that there are not enough safe pathways to Europe that offer a feasible alternative to risky irregular journeys for people in need of protection. In this regard, the Rapporteur encourages Member States to consider the opportunities that exist, especially those that could provide an answer to the mutual challenges posed by economic
and social needs.

Persons arriving in Europe need adequate reception and assistance and access to fair and efficient asylum procedures, particularly those with specific needs, including unaccompanied and separated children and survivors of sexual and gender based violence. In this regard, the Rapporteur also believes that more solidarity is needed within the EU to ensure protection, including through efficient and speedy family reunion and relocation.

For the proper integration of migrants and refugees, actions and measures under both the work programmes and thematic facility should include the active participation of local and regional authorities, who often are the ones coming into everyday contact with the realities on the ground. The Rapporteur believes that localities and regions should be well equipped to ensure inclusivity and dignity for all, including through education, language training, civic orientation courses and other actions promoting equality and social inclusion amongst others.

The Rapporteur acknowledges that a comprehensive plan of action supporting long-term solutions requires close cooperation with third countries. In view of the proposals made on cooperation with third countries, it is important to reiterate that this fund is the sole instrument for asylum and migration within the Union and that actions in or in relation to third countries must not be funded primarily from this Fund. In addition, the Rapporteur thinks it prudent to underline that all actions – whether carried out within the Union or in third countries – must respect the Union acquis on asylum and immigration, international obligations as well the rights and principles enshrined in the Charter of Fundamental Rights of the European Union.

The Fund needs to be flexible enough in order to respond to the different needs of Member States, which vary widely across the European Union. However, the Rapporteur believes that such flexibility, allowing for a swift allocation and reallocation of funding, should be coupled with measures that ensure a fair distribution of resources among the objectives and a high degree of transparency regarding Union expenditure.

As a final point, the Rapporteur insists that in its role as co-legislator, and in carrying out its duty to hold the Commission to account, the European Parliament must be given access to adequate information about the use of the Fund, notably regarding output indicators where necessary, the mid-term and retrospective evaluations, and the annual performance reports.
The following list is drawn up on a purely voluntary basis under the exclusive responsibility of the rapporteur. The rapporteur has received input from the following entities or persons in the preparation of the report, until the adoption thereof in committee:

OPINION OF THE COMMITTEE ON LEGAL AFFAIRS ON THE LEGAL BASIS

Mr Claude Moraes
Chair
Committee on Civil Liberties, Justice and Home Affairs
BRUSSELS

Dear Mr Chair,

By letter of 24 January 2019 you asked the Committee on Legal Affairs to provide an opinion, pursuant to Rule 39 of the Rules of Procedure, on the appropriateness of the addition of Article 80 of the Treaty of the Functioning of the European Union (TFEU) to the legal basis of the above proposal from the Commission.

The committee considered the above question at its meeting of 18 February 2019.

I - Background

The proposal aims at establishing the Asylum and Migration Fund (AMF) as the successor fund to the current Asylum, Migration and Integration Fund\(^1\), with the primary aim of providing support to the efficient management of migration by the Member States. The Fund is intended to ensure that the EU continues to fulfil obligations to those in need of international protection, facilitates returning those persons who have no right to stay and support solutions that replace irregular and uncontrolled migratory flows with safe and well-managed pathways.

The main challenge that the proposal aims to address is the need for greater flexibility in the management of the Fund, as compared with the current programming period, by creating new mechanisms for the allocation of funding for shared, direct and indirect management.

The proposal is based on Articles 78(2) and Article 79(2) and (4) TFEU on policies relating to border checks, asylum and immigration. Several amendments have been tabled in LIBE which aim at adding to the legal basis Article 80 TFEU on the principle of solidarity and fair sharing of responsibility, including its financial implications, between the Member States.

The LIBE report is scheduled to be adopted on 19 February 2019 with a view to adopting a first

reading position in plenary before the elections. No interinstitutional negotiations on this dossier will therefore take place until after the elections.

II - Relevant Treaty Articles

The legal basis in the Commission's proposal is paragraph 2 of Article 78 TFEU and paragraphs 2 and 4 of Article 79 TFEU, which are found in the chapter on policies on border checks, asylum and immigration under the title of the area of freedom, justice and security.

Article 78 has the following wording (emphasis added):

**Article 78**

(ex Articles 63, points 1 and 2, and 64(2) TEC)

1. **The Union shall develop a common policy on asylum, subsidiary protection and temporary protection with a view to offering appropriate status to any third-country national requiring international protection and ensuring compliance with the principle of non-refoulement. This policy must be in accordance with the Geneva Convention of 28 July 1951 and the Protocol of 31 January 1967 relating to the status of refugees, and other relevant treaties.**

2. **For the purposes of paragraph 1, the European Parliament and the Council, acting in accordance with the ordinary legislative procedure, shall adopt measures for a common European asylum system comprising:**

   (a) **a uniform status of asylum for nationals of third countries, valid throughout the Union;**

   (b) **a uniform status of subsidiary protection for nationals of third countries who, without obtaining European asylum, are in need of international protection;**

   (c) **a common system of temporary protection for displaced persons in the event of a massive inflow;**

   (d) **common procedures for the granting and withdrawing of uniform asylum or subsidiary protection status;**

   (e) **criteria and mechanisms for determining which Member State is responsible for considering an application for asylum or subsidiary protection;**

   (f) **standards concerning the conditions for the reception of applicants for asylum or subsidiary protection;**

   (g) **partnership and cooperation with third countries for the purpose of managing inflows of people applying for asylum or subsidiary or**
temporary protection.

3. In the event of one or more Member States being confronted by an emergency situation characterised by a sudden inflow of nationals of third countries, the Council, on a proposal from the Commission, may adopt provisional measures for the benefit of the Member State(s) concerned. It shall act after consulting the European Parliament.

Article 79 TFEU has the following wording (emphasis added):

**Article 79**
(ex Article 63, points 3 and 4, TEC)

1. The Union shall develop a common immigration policy aimed at ensuring, at all stages, the efficient management of migration flows, fair treatment of third-country nationals residing legally in Member States, and the prevention of, and enhanced measures to combat, illegal immigration and trafficking in human beings.

2. For the purposes of paragraph 1, the European Parliament and the Council, acting in accordance with the ordinary legislative procedure, shall adopt measures in the following areas:

   (a) the conditions of entry and residence, and standards on the issue by Member States of long-term visas and residence permits, including those for the purpose of family reunification;

   (b) the definition of the rights of third-country nationals residing legally in a Member State, including the conditions governing freedom of movement and of residence in other Member States;

   (c) illegal immigration and unauthorised residence, including removal and repatriation of persons residing without authorisation;

   (d) combating trafficking in persons, in particular women and children.

3. The Union may conclude agreements with third countries for the readmission to their countries of origin or provenance of third-country nationals who do not or who no longer fulfil the conditions for entry, presence or residence in the territory of one of the Member States.

4. The European Parliament and the Council, acting in accordance with the ordinary legislative procedure, may establish measures to provide incentives and support for the action of Member States with a view to promoting the integration of third-country nationals residing legally in their territories, excluding any harmonisation of the laws and regulations of the Member States.

5. This Article shall not affect the right of Member States to determine volumes of admission of third-country nationals coming from third countries to their
Article 80 TFEU, which is proposed to be added to the legal basis of the proposal, and which is found in the same title and chapter as Articles 78 and 79 TFEU, has the following wording (emphasis added):

**Article 80**
(new Article introduced by the Lisbon Treaty)

The policies of the Union set out in this Chapter and their implementation shall be governed by the principle of solidarity and fair sharing of responsibility, including its financial implications, between the Member States. Whenever necessary, the Union acts adopted pursuant to this Chapter shall contain appropriate measures to give effect to this principle.

III - Case-law on legal basis

It is settled case law of the Court of Justice that "the choice of legal basis for a Community measure must rest on objective factors amenable to judicial review, which include in particular the aim and content of the measure". The choice of an incorrect legal basis may therefore justify the annulment of the act in question.

When it comes to multiple bases it has to be established whether the proposal either:
1. pursues multifold purposes or has multifold components, and one of those is identifiable as the main or predominant purpose or component, whereas the others are merely incidental; or
2. simultaneously pursues a number of objectives or has several components that are indissociably linked, without one being secondary and indirect in relation to the other.

According to the case law of the Court of Justice, in the first case the act must be based on a single legal basis, namely that required by the main or predominant purpose or component, and in the second case the act will have to be founded on the various corresponding legal bases.

IV. Aim and content of the proposed regulation

The main aim of the proposal is to provide support to the efficient management of migration by the Member States by ensuring the continued fulfilment of EU obligations to those in need of international protection, facilitation of returning those persons who have no right to stay and support to solutions that replace irregular and uncontrolled migratory flows with safe and well-managed pathways. The main challenge that the proposal aims to address is the need for greater flexibility in the management of the Fund, as compared with the current programming period, by creating new mechanisms for the allocation of funding for shared, direct and indirect

management.

The proposal consists of 61 recitals, 35 articles and 8 annexes.

Recitals 1-9 set out the political and legislative background to and context of the proposal, including the European Agenda on Migration of May 2015 and the European Council of 19 October 2017, which stress the Union’s ability to bring together European and national efforts to address migration and work together in an effective way, in accordance with the principles of solidarity and fair sharing of responsibility, and reaffirm the need to pursue a comprehensive, pragmatic and resolute approach to migration management that aims to restore control of external borders and reduce irregular arrivals and the number of deaths at sea. These measures should be based on a flexible and coordinated use of all available Union and Member State instruments. The migration crisis has furthermore highlighted the need to reform the Common European Asylum System and to complement and reinforce the activities undertaken by the European Union Agency for Asylum (EUAA).

Recital 10 sets out that the AMF should support the efforts by the Union and the Member States relating to the enhancement of the Member States’ capacity to develop, monitor and evaluate their asylum policies in the light of their obligations under existing Union law.

Recitals 11-30 set out the detailed areas and objectives for the measures to be taken.

Recital 31 set out that funding from the Union budget should concentrate on activities where Union intervention can bring added value compared to action undertaken by Member States alone. Financial support provided under this Regulation should contribute, in particular, to strengthening national and Union capabilities in the areas of asylum and migration.

Recitals 32-40 set out the provisions for how funds and resources are to be allocated and costs reimbursed.

Recital 41 set out that in order to complement the implementation of the policy objective of AMF at national level through Member States’ programmes, AMF should also provide support for actions at Union level. Such actions should serve overall strategic purposes within the scope of intervention of AMF.

Recital 42 set out that it should be possible to provide emergency assistance in accordance with the framework set out in the Regulation.

Recitals 43-48 set out the relationship in practical terms of AMF to other funds and instruments in the same subject area.

Recitals 49-55 set out implementation methods, provisions relating to overseas countries and territories and outermost regions, monitoring requirements, and the relationship to climate action.

Recitals 56-66 set out provisions on the conferral of delegated and implementing powers, subsidiarity and proportionality and the status of the UK, Ireland and Denmark.

Article 3 lays down that the policy objective of AMF is to contribute to an efficient management
of migration flows in line with the relevant Union acquis and in compliance with the Union’s commitments on fundamental rights, with the specific objectives to strengthen and develop all aspects of the Common European Asylum System, to support legal migration to the Member States including to contribute to the integration of third-country nationals, and to contribute to countering irregular migration and ensuring effectiveness of return and readmission in third countries.

Articles 1-6 include general provisions. Article 6 specifies the entities eligible to receive funds and support: Member States, third countries under specific conditions and any legal entity created under Union law or any international organisation.

Articles 7-31 set out the financial and implementation framework of AMF, which is divided into sections on support and implementation under shared, direct and indirect management in accordance with the Financial Regulation. This also includes provisions on monitoring, reporting and evaluation. Article 9 states that the funding from the thematic facility shall be used for its components support to Member States contributing to solidarity and responsibility efforts. Article 17 provides for a lump sum per capita with regard to the relocation of applicants for international protection as well as for beneficiaries.

Articles 32-35 include transitional and final provisions.

Annexes I-VIII set out criteria for the allocation of funding to the programmes under shared management, implementation measures, scope of support, actions eligible for higher co-financing, core performance indicators, types of intervention, eligible actions for operating support and output and result indicators.

In the LIBE draft report it is suggested to add Article 80 TFEU to the legal basis (see AM 2), and such addition has also been suggested by amendments from several shadow rapporteurs in LIBE (see AM 161-163).

Several amendments in LIBE also seek to add the following objective of AMF in Article 3 (see AM 46, 322, 323, 325):

[To] ensure solidarity and fair sharing of responsibility between the Member States, in particular towards those most affected by migration and asylum flows, including through practical cooperation.

Furthermore, several LIBE amendments on related implementation measures in the Annexes makes reference to relocation and solidarity (see AM 137, 568, 569).

V - Determination of the appropriate legal basis

It should first be stressed that the EP already proposed that Article 80 TFEU should be added to the legal basis during the legislative procedure for the current Asylum, Migration and Integration Fund1. The Legal Service was then asked to provide a legal opinion on such an addition, which concluded that it was appropriate to add the second sentence of Article 80

---

1 See footnote 1.
TFEU as a joint legal basis for the specific measures on relocation.\textsuperscript{1} While that Regulation was eventually adopted without including Article 80 TFEU, in its resolution of 26 March 2016 on the situation in the Mediterranean and the need for a holistic EU approach to migration, the EP stated the following in the first paragraph of the resolution\textsuperscript{2}:

\begin{quote}
1. Points out that solidarity must be the principle upon which Union action on migration is based; notes that the principle of solidarity, as set out in Article 80 TFEU, covers asylum, immigration and border control policies; takes the view that Article 80 provides a legal basis ‘jointly’ with Articles 77-79 TFEU to implement the principle of solidarity in those areas.
\end{quote}

The position of the EP, as confirmed by the vote in plenary on the above resolution, is therefore that Article 80 TFEU could and should be used as a legal basis together with the legal bases put forward by the Commission for this proposal.

Furthermore, the Legal Service states in its 2013 legal opinion analysing the legal basis of the current Asylum, Migration and Integration Fund that the inclusion of Article 80 in the Treaty originates from a recommendation of the European Convention, and that the second sentence of that article was drafted with the intention of creating some form of legal basis with the aim of fleshing out, in detailed policies, the solidarity principle. This second sentence of Article 80 TFEU, in a similar fashion to the flexibility clause in Article 352, provides the Union with a legal basis to adopt appropriate measures to fill a gap where the Treaties do not expressly or impliedly provide powers which are necessary to achieve the objectives of the Union, in this case specifically the objective of achieving solidarity and fair sharing of responsibility between Member States\textsuperscript{3}.

Given that the current Asylum, Migration and Integration Fund is based on Article 78(2) TFEU and Article 79(2) and (4) TFEU - on measures for a common European asylum system, a common immigration policy and measures for the promotion of integration of third-country nationals, respectively - and given that the Regulation simultaneously pursues those objectives with components that are indissociably linked, without one being secondary and indirect in relation to the other, those Articles must form part of the legal basis for the proposal.

The question then becomes whether Article 80 TFEU also should form part of the legal basis together with Article 78(2) TFEU and Article 79(2) and (4) TFEU.

The main aim of the proposal, according to the Commission, is to provide support to the efficient management of migration by the Member States by addressing the need for greater management flexibility, as compared with the current programming period, by creating new mechanisms for the allocation of funding for shared, direct and indirect management. The proposal furthermore includes provisions on funding support to Member States contributing to solidarity and responsibility efforts (Article 9) and on lump sum per capita contributions with regard to the relocation of applicants for international protection as well as for beneficiaries (Article 17). Already the Commission proposal therefore includes provisions on solidarity and fair sharing of responsibility, including its financial implications, between the Member States.

\textsuperscript{1} See the 2013 opinion of the EP’s Legal Service, SJ-0139/13, annex I.
\textsuperscript{2} Texts adopted, P8_TA(2016)0102.
\textsuperscript{3} See the 2013 opinion of the EP’s Legal Service, SJ-0139/13, points 27 and 41.
As outlined above, the LIBE draft report and the amendments tabled in LIBE fleshes this out even further by adding in Article 3 the objective to ensure solidarity and fair sharing of responsibility between the Member States, in particular towards those most affected by migration and asylum flows, and by the inclusion of related implementation measures in the Annexes.

As concluded by the Legal Service, since the above-mentioned provisions on solidarity and relocation clearly provide for financing of specific measures to give effect to the principle of solidarity and fair sharing of responsibility, the mention of Article 80 TFEU would contribute to ensure clarity and legal certainty with regard to the inclusion in the act of the specific measures in question, by underlining their objective.

Article 80 TFEU states that Union acts adopted pursuant to the Chapter on policies on border checks, asylum and immigration (Articles 77-80 TFEU) shall, whenever necessary, contain appropriate measures to give effect to the principle of solidarity and fair sharing of responsibility, including its financial implications, between the Member States. As outlined above, this proposal by the Commission, including as proposed to be amended, includes provisions on such measures. Since the proposed regulation simultaneously pursues such objectives, which are indissociably linked, without being secondary or indirect to the objectives and components relating to Article 78(2) TFEU and Article 79(2) and (4) TFEU, it should be founded also on Article 80 TFEU.

VI - Conclusion and recommendation

In the light of the foregoing analysis Article 80 TFEU could be added to Article 78(2) TFEU and Article 79(2) and (4) TFEU to form the legal basis for the proposal.

At its meeting of 18 February 2019 the Committee on Legal Affairs accordingly decided, by 11 votes in favour, 6 votes against and no abstentions, to recommend that the Committee on Civil Liberties, Justice and Home Affairs could therefore include Article 80 TFEU as an additional legal basis in their report on the dossier.

Yours sincerely,

Pavel Svoboda

OPINION OF THE COMMITTEE ON DEVELOPMENT

for the Committee on Civil Liberties, Justice and Home Affairs

Rapporteur for opinion: Elly Schlein

SHORT JUSTIFICATION

The Commission has presented to the European Parliament and the Council a proposal establishing the Asylum and Migration Fund, as part of the Multiannual Financial Framework (MFF) 2021-2027. The Fund will provide support to the efficient management of migration by EU Member States with an envelope of EUR 10, 4 billion.

The migration crisis has shown the need for a common European approach based on solidarity and fair sharing of responsibility. The Rapporteur therefore welcomes the increase of the budget available for migration and asylum as an essential step to build a strong, fair and effective asylum and reception system within the EU.

However, the Rapporteur considers that the proposal as it stands puts excessive emphasis on increasing return rates. In fact, the proposed criteria for the allocation of funding to the national programmes under shared management provide that 40% of this funding will be destined depending on indicators related to countering irregular migration and issuing returns to the detriment to actions in the field of asylum, legal migration and integration. This would create incentives for Member States to issue and enforce return decisions, without taking into account the risks for returnees and possible impact for countries of origin.

The steps taken by the Commission to build a robust EU migration policy have to be welcomed. However, the Rapporteur believes that the European Parliament and the Council should include in the proposal the necessary guarantees for returnees and countries of origin. Return decisions cannot be taken without a comprehensive assessment of the situation in countries of origin and the absorption capacity at the local level. It is essential to verify the possible impact of returnees on the stability of the countries of origin, as returns could contribute to conflict, friction and fragility.
In addition, the Parliament and the Council should ensure that EU relations with third countries are not conditional to the cooperation in the field of return and readmission. Cooperation with third countries should be based on mutual interest and a comprehensive approach rather than on EU interests and priorities in the field of migration. A narrow focus on migration management can jeopardize EU cooperation with third countries.

Amendment 3
Proposal for a regulation
Recital 4 c (new)

Amendment 4

Proposal for a regulation
Recital 7

Text proposed by the Commission

(7) The Fund should support the efficient management of migration flows, inter alia by promoting common measures in the area of asylum, including Member States’ efforts in receiving persons in need of international protection through resettlement and the transfer of applicants for or beneficiaries of international protection between Member States, supporting integration strategies and a more effective legal migration policy, so as to ensure the Union’s long-term competitiveness and the future of its social model and reduce incentives for irregular migration through a sustainable return and readmission policy. The Fund should support the strengthening of cooperation with third countries to reinforce management of flows of persons applying for asylum or other forms of international protection, avenues on legal migration and to counter irregular migration and ensure sustainability of return and effective readmission to third countries.

Recital 8

Text proposed by the Commission

(8) The migration crisis highlighted the need to reform the Common European Asylum System to ensure that efficient asylum procedures to prevent secondary movements, to provide uniform and appropriate reception conditions for applicants for international protection, uniform standards for the granting of international protection and appropriate rights and benefits for beneficiaries of international protection. At the same time, the reform was needed to put in place a fairer and more effective system of determining Member States’ responsibility for applicants for international protection as well as a Union framework for Member States’ resettlement efforts. Therefore, it is appropriate for the Fund to provide increased support to Member States’ efforts to fully and properly implement the reformed Common European Asylum System.

Amendment

(8) It is appropriate to support and improve the efforts made by Member States to fully and properly implement the Union asylum acquis, in particular to grant appropriate reception conditions to displaced persons and applicants for, and beneficiaries of, international protection, to ensure the correct determination of status, to apply fair and effective asylum procedures and to promote good practice in the field of asylum, so as to protect the rights of persons requiring international protection and enable Member States’ asylum systems to work efficiently. The Fund should therefore provide increased support to Member States’ efforts to fully and properly implement the reformed Common European Asylum System.

Amendment

(11) Partnerships and cooperation with
third countries are an essential component of Union asylum policy to ensure the adequate management of flows of persons applying for asylum or other forms of international protection. With the aim of replacing the unsafe and irregular arrivals with legal and safe arrival to the territory of the Member States of third-country nationals or stateless persons in need of international protection, expressing solidarity with countries in regions to which or within which a large number of persons in need of international protection have been displaced by helping to alleviate the pressure on those countries, achieving the Union's migration policy objectives by increasing the Union's leverage vis-à-vis third countries, and of effectively contributing to global resettlement initiatives by speaking with one voice in international fora and with third countries, the Fund should provide financial incentives to the implementation of the Union Resettlement [and Humanitarian Admission] Framework.

Amendment 9

Recital 12

Text proposed by the Commission

(12) Considering the **high levels of migration flows to the Union in the last years** and the importance of ensuring the cohesion of our societies, it is crucial to support Member States’ policies for early integration of legally staying third-country nationals, including in the priority areas identified in the Action Plan on Integration of third-country nationals adopted by the Commission in 2016.

Amendment

(12) Considering the importance of ensuring the cohesion of our societies, it is crucial to support Member States’ policies for **early reception, integration and inclusion** of legally staying third-country nationals, including in the priority areas identified in the Action Plan on Integration of third-country nationals adopted by the Commission in 2016.
Amendment 10

Proposal for a regulation
Recital 13

Text proposed by the Commission

(13) In order to increase efficiency, achieve the greatest Union added value and to ensure the consistency of the Union’s response to foster the integration of third-country nationals, actions financed under the Fund should be specific and complementary to actions financed under the European Social Fund Plus (ESF+) and the European Regional Development Fund (ERDF). Measures financed under this Fund should support measures tailor-made to the needs of third-country nationals that are generally implemented in the early stage of integration, and horizontal actions supporting Member States’ capacities in the field of integration, whereas interventions for third-country nationals with a longer-term impact should be financed under the ERDF and ESF+.

Amendment

(13) To improve and reinforce the integration process in European societies, the Fund should facilitate legal migration to the Union in accordance with the economic and social needs of Member States and anticipate the preparation of the integration process already in the country of origin of the third-country nationals coming to the Union. Actions in third countries should be fully coherent with the principle of policy coherence for development and the commitments for the achievements of the sustainable development goals.

Amendment 11

Proposal for a regulation
Recital 13 a (new)

Text proposed by the Commission

(13a) The scope of the integration measures should also include beneficiaries of international protection in order to ensure a comprehensive approach to integration, taking into account the specificities of that target group. Where integration measures are combined with reception, actions should, where appropriate, also allow asylum seekers to be included.

Amendment

(13a) The scope of the integration measures should also include beneficiaries of international protection in order to ensure a comprehensive approach to integration, taking into account the specificities of that target group. Where integration measures are combined with reception, actions should, where appropriate, also allow asylum seekers to be included.

(14) In this context, the authorities of the Member States responsible for the implementation of the Fund should be required to cooperate and establish coordination mechanisms with the authorities identified by Member States for the purpose of the management of the interventions of the ESF+ and of the ERDF and wherever necessary with their managing authorities and with the managing authorities of other Union funds contributing to the integration of third-country nationals.

Amendment
(14) In order to be efficient and achieve the greatest added value, the Fund should pursue a more targeted approach, in support of consistent strategies specifically designed to promote the integration of third-country nationals at national, local and/or regional level, where appropriate. Those strategies should be implemented mainly by local or regional authorities and non-state actors, while not excluding national authorities, in particular where the specific administrative organisation of a Member State would so require, or where, in a Member State, reception, integration and inclusion actions fall within a competence shared between the State and decentralised administration. The implementing organisations should choose the measures most appropriate to their particular situation from a range of measures available.

Amendment

(21) Member States should give preference to voluntary return. In order to promote voluntary return, Member States should envisage incentives such as preferential treatment in the form of enhanced return assistance, through vocational training in Europe which would help returnees re-enter the labour market in their countries of origin. These measures should be implemented with the active participation of local authorities, civil society and diasporas.

*Amendment*

(25) In addition to supporting the
of persons as provided for in this Regulation, the Fund should also support other measures to counter irregular migration, address incentives for illegal migration or the circumventing of existing legal migration rules, thereby safeguarding the integrity of Member States’ immigration systems. The employment of irregular migrants creates a pull factor for illegal migration and undermines the development of a labour mobility policy built on legal migration schemes. The Fund should therefore support Member States, either directly or indirectly, in their implementation of Directive 2009/52/EC of the European Parliament and of the Council which prohibits the employment of illegally staying third-country nationals and provides for sanctions against employers who infringe that prohibition. It also includes protective elements such as the right of irregularly employed third country nationals to lodge complaints and claim back their wages. The Fund should support the implementation of the latter, as these protective elements have not been implemented sufficiently, as was pointed out in the communication from the Commission to the European Parliament and the Council of 22 May 2014 on the application of Directive 2009/52/EC of 18 June 2009 providing for minimum standards on sanctions and measures against employers of illegally staying third country nationals.

OPINION OF THE COMMITTEE ON BUDGETS

for the Committee on Civil Liberties, Justice and Home Affairs

on the proposal for a regulation of the European Parliament and of the Council establishing the Asylum and Migration Fund

Rapporteur: Karine Gloanec Maurin

SHORT JUSTIFICATION

The general objective of the Asylum and Migration Fund (AMF), as of the Multiannual Financial Framework, is to provide financial and technical support to Member States to establish sustainable management of challenges related to asylum, migration and the external borders.

Article 80 of the Treaty on the Functioning of the European Union expressly states that these common policies are based on the twin principles of solidarity and fair sharing of responsibilities between Member States.

The Asylum and Migration Fund, which aims to implement this comprehensive approach, is to be financed through a substantial allocation over the period 2021-2027, in order to facilitate its deployment in a fair, effective and diligent manner.

AMENDMENTS

The Committee on Budgets calls on the Committee on Civil Liberties, Justice and Home Affairs, as the committee responsible, to take into account the following amendments:

Proposal for a

The Fund should support the strengthening of cooperation with third countries to reinforce management of flows of persons applying for asylum or other forms of international protection, avenues on legal migration and to counter irregular migration and ensure sustainability of return and effective readmission to third countries.

(17) Considering the crucial role played by local and regional authorities and civil society organisations in the field of integration and to facilitate the access of these entities to funding at Union level, the Fund should facilitate the implementation of actions in the field of integration by local and regional authorities or civil society organisations, including through the use of the thematic facility and through a higher co-financing rate for these actions.

Amendment 4
Proposal for a regulation
Recital 20

Text proposed by the Commission

(20) An efficient return policy is an integral part of the comprehensive migration approach the Union and its Member States pursue. The Fund should support and encourage efforts by the Member States with a view to the effective implementation and further development of common standards on return, in particular as set out in Directive 2008/115/EC of the European Parliament and of the Council\(^\text{15}\), and of an integrated and coordinated approach to return management. For sustainable return policies, the Fund should equally support related measures in third countries, such as the reintegration of returnees.
