Climate change conference in Cancun (COP16)

Motion for a resolution

Paragraph 6 a (new)

Motion for a resolution

Amendment

6a. As climate change has a different impact on developing countries, suggests that climate action and financing should be targeted as a matter of priority on the countries which are most vulnerable to climate change and which do not have the capacities to cope with it; calls, therefore, for the creation of an indicator measuring exposure to climate change and for the establishment of an ad hoc group in the UNFCCC in order to ensure that poor countries under climate threat are protected, whatever the results of climate negotiations;

Paragraph 11 a (new)

Motion for a resolution

Amendment

11a. Recalls the obligation of the Parties to the UNFCCC to encourage the widest possible participation in the UNFCCC process; in keeping with the Aarhus Convention on Access to Information, Public Participation in Decision-Making and Access to Justice in Environmental Matters, calls on the EU delegation and on the Member States to take proactive measures to support access for non-governmental organisations to and their active involvement in the UNFCCC;

Paragraph 15

Motion for a resolution

Amendment

15. Recalls that the international agreement should guarantee collective reductions in greenhouse gas emissions in the developed countries at the high end of the IPCC's 25-40% range for 2020 as compared to 1990 levels and that recent scientific data indicates that an emissions reduction of at least 40% is required for a 2°C objective to be achieved with only a 50% degree of probability; calls for those reductions to be domestic; recalls that a long-term reduction target should be set for the EU and the other developed countries of at least 80% by 2050 as compared to 1990 levels;

Motion for a resolution

Paragraph 16

Motion for a resolution

16. Reiterates the need to adopt a domestic greenhouse gas emissions reduction target for the European Union of **30%** by 2020 as compared with the 1990 level, in the interests of the *future economic growth of the European Union*;

Amendment

16. Reiterates the need to adopt a domestic greenhouse gas emissions reduction target for the European Union of **40%** by 2020 as compared with the 1990 level, in the interests of the *economy, in order to meet the 2°C objective, in order to show leadership in the international negotiations, and in order to capture the co-benefits in terms of reduced dependency on fossil fuels and improved air quality*;
