*Motion for a resolution*

*Amendment*

***63a. Calls on the EU to place more emphasis on energy savings in international negotiations; in that connection, notes and deeply deplores the fact that the EU is not on track to meet the 20% energy-saving target set by the Heads of State and Government by 2020, owing to the non-binding approach taken; calls, therefore, on the EU to lead by example and on the Commission to propose new measures to ensure that the target is met and that Europe does not lag behind in the area of global efficiency innovations;***
