Motion for a resolution

B7-0622/2010

Paolo De Castro

on behalf of the Committee on Agriculture and Rural Development
The situation in the beekeeping sector

Motion for a resolution

Recital E

Motion for a resolution

Amendment

E. whereas bee mortality is an increasing problem in many regions owing to a synergy of factors, including bee diseases, bees' weakened immunity to pathogens and parasites, climate and, to some extent, land use change, with periods when there is a lack of food and foraging for bees, and also owing to the progressive eradication of melliferous plant species *and* the use of plant protection products and unsustainable farming techniques,

E. whereas bee mortality is an increasing problem in many regions owing to a synergy of factors, including bee diseases, bees' weakened immunity to pathogens and parasites, climate and, to some extent, land use change, with periods when there is a lack of food and foraging for bees, and also owing to the progressive eradication of melliferous plant species, the use of plant protection products *and pesticides, particularly neurotoxins,* and unsustainable farming techniques,
