41a (new)

Motion for a resolution

Amendment

41a. Stresses the need to exercise the greatest care and to have recourse to the latest environmental technology in relation to power plant construction along the Danube and the relevant regulatory measures; demands, in this regard, that the landscape context, which is unique in Europe, be respected and that the EU rules on development authorisation be applied from the outset; considers that these principles must also hold good in respect of structural alternations to the course of other rivers;
