

Amendment 3**Bas Eickhout**

on behalf of the Verts/ALE Group

Draft recommendation**B8-0177/2017****Kathleen Van Brempt, Jens Gieseke, Gerben-Jan Gerbrandy**

on behalf of the Committee of Inquiry into Emission Measurements in the Automotive Sector following the inquiry into emission measurements in the automotive sector

Draft recommendation**Paragraph 13***Draft recommendation**Amendment*

13. Urges the Commission to review in 2017 the conformity factor for RDE tests of NO_x emissions, as provided for by the 2nd RDE package; calls on the Commission to further revise the conformity factor annually, in line with technological developments, so as to bring it *as close* to 1 *as possible* at the *earliest opportunity, accounting only for the measurement uncertainty of Portable Emissions Measurement System (PEMS) equipment*;

13. Urges the Commission to review in 2017 the conformity factor for RDE tests of NO_x emissions, as provided for by the *2nd* RDE package; calls on the Commission to further revise the conformity factor annually, in line with technological developments, so as to bring it *down to 1 by 2021* at the *latest*;
