Recommendations for opening of trade negotiations between the EU and the US

**Motion for a resolution**

**Paragraph 2**

*Motion for a resolution*

*Amendment*

2. ***Reiterates that the EU should not negotiate with the US under threat; notes, however, that the recommendations to open negotiations for a WTO compliant agreement are essential to uphold and fully implement the commitments agreed between the EU and the US in the Statement;***

2. ***Supports the line of the Commission not to negotiate under threat; is surprised, therefore, that the Commission recommends opening negotiations for a WTO-compatible free trade agreement;***

**Paragraph 6**

*Motion for a resolution*

*Amendment*

6. ***Reiterates that neither the EU nor the US negotiating directives envisage a resumption of the TTIP negotiations; takes the view that a limited agreement with the US on the elimination of tariffs for industrial goods, including cars, and which takes European industrial sensitivities related to the difference in energy and regulatory costs into account, as well as a conformity assessment agreement with no changes to EU standards and rules, could pave the way to launching a new process to work towards mutually beneficial trade relations and thereby ease current trade tensions; emphasises that any agreement must be compatible with WTO rules and obligations, including GATT Article XXIV; notes that the Commission's recommendations to open negotiations should not be construed as an indication that it would be willing to derogate from existing trade and investment policies as outlined in the Trade for All strategy;***

6. Takes the view that a limited agreement with the US on the elimination of tariffs for industrial goods ***derogates from the Commission's comprehensive Trade for All strategy, which also includes enforceable labour and environmental standards, and risks being incompatible with GATT Article XXIV if the automobile sector is excluded; takes note of the Commission's reasoning of special circumstances for pursuing this approach;***

*Motion for a resolution*

*Amendment*

11. Deeply regrets ***the withdrawal of*** the US from the Paris Agreement; recalls that the European Parliament stressed in its resolution on climate diplomacy that the EU should make the ratification and implementation of the Paris Agreement a ***condition*** for future trade agreements; ***highlights nevertheless that the recommendations refer to a limited agreement and not a comprehensive free trade agreement; considers, therefore, that any such agreements should represent an exception dictated by specific circumstances, and in any case not create a precedent for the European Union in future negotiations;*** notes, ***in this context,*** that the resolution on climate diplomacy stresses the importance of closely cooperating with the US, and calls on the Commission to engage with the US on climate and sustainability policies;

11. Deeply regrets the US ***announcement to withdraw*** from the Paris Agreement; recalls that the European Parliament stressed, in its resolution on climate diplomacy, that the EU should make the ratification and implementation of the Paris Agreement a ***pre-condition*** for future trade agreements, ***as also proposed by the delegations of some Member States to the Environment Council on 1 March 2019;*** notes that the ***European Parliament's*** resolution on climate diplomacy ***also*** stresses the importance of closely cooperating with the US, and calls on the Commission to engage with the US on climate and sustainability policies;
