

EN  
E-005382/2012  
Answer given by Mr De Gucht  
on behalf of the Commission  
(28.6.2012)

The European Commission does not compile trade statistics for imports of goods by individual Member States. Moreover, the European Commission wishes to point out to the Honourable Member that the purpose of Parliamentary questions can not be to obtain factual information that is otherwise available, neither to substitute for research work that can be fulfilled by other entities.
