Subject: Creative Europe programme: historical events

Historical events (parades, shows, re-enactments) are an excellent means of preserving and passing on local heritage while enhancing the tourism appeal of these regions.

Are these events eligible for financial assistance from the EU under the 2014-2020 Creative Europe programme? If they are, at what point in time and what form would this take? If not, are there other sources of funding for which they could apply?
