Subject: Mobilisation of the European Globalisation Adjustment Fund

With reference to the dossier EGF/2012/010RO/Mechel, since two years elapsed between the initial application being made (21 December 2012) and its being concluded (4 March 2014), I would like the Commission to clarify why those delays arose.

Can the Commission state which Romanian authority made the initial application in 2012, what additional information it was asked to provide, and whether it has offered any explanation for the delay in concluding the dossier?
