to the Commission**
Rule 130
Hugues Bayet (S&D)

Subject: Employment of persons with a disability

A key target of the Disability Strategy 2010-2020 is to raise the employment rate among persons with a disability.

Member States must include a chapter on this issue in the national employment plans which they are required to submit to the Commission each year.

Four years after launching the Disability Strategy 2010-2020, can the Commission provide any statistics concerning the trend in the number of persons with a disability in employment?
