Subject: Employment of Croatian citizens in the EU bodies

The European Personnel Selection Office (EPSO) regularly carries out competitions and tests to recruit Croatian citizens to the EU bodies. On the basis of these competitions and tests, EPSO establishes a reserve list of Croatian citizens corresponding to the levels of positions in the EU bodies. However, there are no clear provisions governing the employment of Croatian citizens in the EU bodies.

In view of the above:

1. How does the Commission plan to do to ensure that Croatian citizens are recruited to the EU bodies?
2. What is the overall number of Croatian citizens employed in the EU bodies?
3. Are there target quotas for the number of Croatian citizens employed in the EU bodies?
