

**Question for written answer E-010523/2014
to the Commission**
Rule 130
Sorin Moisă (S&D)

Subject: Simplification of the Common Agricultural Policy (CAP)

Can the Commission please explain how it plans to approach the issue of simplifying the Common Agricultural Policy during the current mandate? All commissioners in living memory who were responsible for this field have promised to tackle the issue, but they were ultimately confronted with the reality of differing national challenges and specificities, which made structural simplification a very challenging task. Perhaps this Commission has a new approach in mind?
