

**Question for written answer E-010769/2014
to the Commission**

Rule 130

Lola Sánchez Caldentey (GUE/NGL)

Subject: State Aid EU N 63/10 for 200 million euros in the Region of Murcia

Through EU state aid, reference number N 63/10, the EU had no problem with providing a guarantee to the Government of Murcia for obtaining finance for the construction of the Murcia Region International Airport (AIRM) through the *Sociedad Concesionaria Aeropuerto de Murcia* (SCAM) [Murcia Airport Concession Company], to the value of 200 million euros.

A number of events have befallen this organisation since 2012, and the Government of Murcia has withdrawn the contract from SCAM.

The Government of the Region of Murcia has stated in court that 'the attitude of SCAM in requesting further financial assistance from the Community, in breach of its own tender and the terms of the contract, and its repeated non-compliance with its contractual obligations when this request was rejected, is what led the Administration to take the only possible action to achieve the final objective of commissioning an airport, in other words, termination'.

Is the Commission aware of the termination of the concession contract with SCAM, for which the Government of the Region of Murcia requested state aid EU N 63/10 to the value of 200 million euros, which invalidates the purpose of this state aid?
