

**Question for written answer E-000727/2015
to the Commission**

Rule 130

José Blanco López (S&D)

Subject: Use of Structural Funds to produce demographic change in Galicia

Further to my earlier question, which identified regional policy as a key tool in bringing about demographic change owing to its ability to open up the Structural Funds to the regions and thus enable them to develop appropriate strategies in this area, and in view of the fact that the Member States earmarked some EUR 30 billion for measures of this type in the programming period 2007–2013, could the Commission tell us how much has been set aside for the purpose of generating demographic change in Galicia, what initiatives have been developed and what the outlook is for this area for the period 2014–2020 in my Autonomous Community?
