Subject: Post-2015 global development agenda negotiations - milestones

The informal stocktaking event on post-2015 development agenda, held in New York on 19 January 2015, marked the beginning of intergovernmental negotiations under the UN.

As the European Parliament rapporteur on the global development framework after 2015, I am interested in what the milestones are and what important events/meetings/working groups related to the negotiations will take place during 2015.

1. Is there a comprehensive and detailed schedule of meetings and events relevant for the post-2015 agenda negotiations, those organised by the Commission, as well as by the UN, available for the public?
2. Furthermore, can you provide us with the titles of the Commission communications relevant to the post-2015 negotiations process and expected dates that these materials will be released?
