Subject: EU funds paid to Croatia in 2014

In the response (HR E-010632/2014) of the Commission (30 January 2015) concerning the balance of paid and used EU funds for Croatia we were informed that 'the consolidated data for 2014 are not yet available; they will be included in the financial statement for 2014, which is expected to be issued in July, 2015'.

Since this is a matter of debate in the Croatian public, in view of the interest of the public and the need to provide transparent and accurate information to interested citizens I ask the Commission to draw from the work of the competent departments 'current information' about the flow of financial resources and answer the following question:

How much in net EU funds was disbursed to Croatia for 2014 in relation to funds that Croatia paid into the EU budget in that year?
