

**Question for written answer E-001816/2015
to the Commission**
Rule 130
Ivan Jakovčić (ALDE)

Subject: Paedophilia on the internet

Paedophilia and child pornography are unfortunately very widespread on the internet. It is estimated that tens of thousands of websites contain paedophilic content and child pornography.

Member States fight against perpetrators of such crimes, but that is not enough. What is needed is a long-term and systematic pan-European fight against this crime.

Therefore, I ask: what measures is the Commission taking in cooperation with Member States to put an end to these crimes against children and punish their perpetrators?
