Subject: Accession negotiations with Serbia

In its communication entitled 'Enlargement Strategy and Main Challenges 2014-15', the Commission stated that Serbia needs to maintain its commitment to regional cooperation and active and constructive engagement in the normalisation process with Kosovo.

In the spirit of regional cooperation and with a view to applying consistent criteria, will the Commission insist that other bilateral agreements with neighbouring countries are fully adhered to, including the 1996 Agreement on Normalisation of Relations between the then Federal Republic of Yugoslavia, consisting of Serbia and Montenegro, and the Republic of Croatia?
