Subject: Situation on the Hungary-Serbia border

Due to the rise both in the number of people crossing into Hungary from Serbia and in the number of requests for asylum made by them to Germany, the latter country has sent 20 police officers to Hungary in order to stem the flow of migration.

Is this hardening of conditions for entry into the Schengen area via Hungary supported in any way by the Commission?

Have Hungary and Germany discussed their intentions with the Commission?

Does the current situation affect the visa liberalisation policy for the citizens of Kosovo (in terms of Resolution 1244 of the UN Security Council)?
