Dario Tamburrano (EFDD), Marco Zanni (EFDD) and Marco Zullo (EFDD)**

Subject: Data concerning infringement proceedings

Infringement proceedings are the instrument through which the Commission performs its duty of monitoring that the Member States comply with EU law.

That said, can the Commission say how much each Member State has paid to date in financial penalties imposed by the Court of Justice following infringement procedures, specifying the total sum spent by each EU country in addition to the amount charged and the amount actually paid for each individual infringement detected?
