to the Commission**
Rule 130
Patricija Šulin (PPE)

Subject: The timetable for realisation of the European Strategy for more Growth and Jobs in Coastal and Maritime Tourism

Last year the Commission approved the Strategy for more Growth and Jobs in Coastal and Maritime Tourism (COM(2014)0086). In its report it defined 14 measures for stimulating lasting growth in this sector and the development of European coastal regions. Slovenia is one of the EU Member States which, despite its natural assets, still poorly exploits its tourist potential, particularly the potential of coastal and maritime tourism, and I believe that effective implementation of the European strategy could bring greater benefit. In its report the Commission mentioned regular monitoring of the realisation of activities, but without a timetable. I would therefore like to ask the Commission:

1. How long will it take to develop the internet guide with a summary of the main financing possibilities that are available for that sector (especially for SME) (activity 14)?
2. Is it possible to say on what timescale it is planned to realise each of the 14 defined activities?
