to the Commission**
Rule 130
Nessa Childers (S&D)

Subject: Concrete products and construction fill quality in Ireland

In light of the recurring, serious instances of major structural damage to buildings in Ireland, arising from the use of defective concrete and construction fill, and in particular from pyrite contamination (especially in County Dublin) and sulphite contamination (especially in Counties Mayo and Donegal), could the Commission indicate whether it has raised, or plans to raise, this matter with the Irish Government?
