

**Question for written answer E-003813/2015  
to the Commission**  
Rule 130  
**José Blanco López (S&D)**

Subject: Breach of sanitation regulations

In its answer to my Written Question E-010245/2014 the Commission stated that 'twelve small urban agglomerations of between 2 000 and 15 000 inhabitants located in Galicia are subject to an ongoing infringement procedure (covering a total of 612 agglomerations across Spain) for failure to comply with Articles 3 and 4, paragraphs 1 and 3, of Directive 91/271/EEC'.

It added that 'the Commission is now assessing the situation in another 241 large agglomerations that discharge their waste water into normal and sensitive areas across all the regions of Spain'.

Could the Commission clarify to which twelve small urban agglomerations in Galicia it referred in its reply?

Could it also specify how many of the other 241 agglomerations referred to in its reply are located in Galicia and which ones these are?
